SOUTHERN ILLINOIS UNIVERSITY

1962-1963

JULY, 1962

THE JULY MEETING of the Board of Trustees of Southern Illinois University was held in the office of the Board on Friday, July 13, 1962, beginning at 9 A.M.

The following members of the Board were present: Kenneth L. Davis, Harold R. Fischer, Melvin C. Lockard, Arnold H. Maremont, Lindell W. Sturgis, John Page Wham, George T. Wilkins. Dr. Martin Van Brown was absent.

Also present were President Delyte W. Morris, Vice-President Charles D. Tenney, Vice-President Clarence W. Stephens, Director of Business Affairs John S. Rendleman, Acting Legal Counsel C. Richard Gruny, Business Manager and Treasurer Robert L. Gallegly, Assistant Director of Information Service C. A. Frazer; Ben Gelman, Reporter for *The Southern Illinoisan*, Marion R. Lynes, Reporter for *The St. Louis Globe-Democrat*, and Mrs. Louise Morehouse, Recorder for the Board of Trustees.

The Chairman presented the minutes of the meeting of the Board held June 13, 1962, copies of which had been forwarded to all members of the Board in advance of this meeting. On motion of Melvin C.Lockard, seconded by Kenneth L. Davis, these minutes were approved as presented.

Matters Presented by President Morris

THE FOLLOWING UNIVERSITY MATTERS were presented by the administration for consideration by the Board of Trustees:

PRESENTATION OF ANNUAL INTERNAL BUDGET FOR 1962–1963

At the last regular meeting, June 13, 1962, salary lists for faculty-administrative and staff personnel were presented to and approved by the Board, with authorization granted for subsequent changes to be made as indicated by further examination of developments and conditions. A copy

of the Annual Internal Budget for 1962–1963 was mailed to each member of the Board prior to this meeting.

President Morris presented the budget document with the recommendation that it be approved by the Board. After discussion and on motion of Kenneth L. Davis, seconded by Arnold H. Maremont, the Board adopted the budget as presented. The vote was as follows: Yea, Mr. Davis, Mr. Fischer, Mr. Maremont, Mr. Sturgis, Mr. Wham, Mr. Wilkins, Mr. Lockard; nay, none.

ELECTRICAL SERVICE AGREEMENT

For the last several months, the administration has been negotiating with the Central Illinois Public Service Company for a new electrical rate. These discussions were initiated by the University as a result of the study of the annual electrical bill and the University's increased consumption.

The discussions involved not only the electrical rate, but also a relocation of the University substation which is the property of the Central Illinois Public Service Company and used to provide the electrical requirements of the University. The substation is presently located immediately southeast of the power plant. It is proposed to move the substation or to provide additional substation facilities east of the present location and east of the Illinois Central Railroad track.

Also involved in the discussions were the locations of large power lines which would provide the University with a power supply from two directions. This dual supply is important in the event trouble develops at one location. With a dual supply, the other direction of the load can be immediately utilized so there is no interruption of power.

The rate proposed and the effect it would have had upon our current electrical billing is shown by the attached statement. To take advantage of the reduced rate, it will be necessary for the University to enter into a ten-year contract with the Central Illinois Public Service Company for electrical power. The term of ten years is somewhat misleading in that the University simply agrees that if funds are appropriated and if electricity is needed the University's purchase for the next ten years will be made from the Central Illinois Public Service Company.

Approval is requested for the administration to be authorized to execute such easements, licenses, and right-of-way grants as are necessary to effect the above-described services and to enter in the ten-year electrical service agreement.

A copy of the statement mentioned was placed on file with the Secretary of the Board. At the request of President Morris, Director of Business Affairs John S. Rendleman explained that the inclusion of additional locations in the single billing would reduce the effective average per kilowatt hour to less than one cent. He also indicated that the location of the proposed second substation would insure a continuous electrical power supply, regardless of any interruptions.

On motion of George T. Wilkins the administration was authorized to proceed with execution of necessary documents when negotiations were

atisfactory, and to enter into a ten-year agreement for electrical service. The motion was seconded by Lindell W. Sturgis, and the vote was as follows: Yea, Mr. Davis, Mr. Fischer, Mr. Maremont, Mr. Sturgis, Mr. Vham, Mr. Wilkins, Mr. Lockard; nay, none.

REPORTS ON CURRENT AND PENDING MATTERS

At the meeting held July 13, 1962, the administration was authorized to negotiate a contract for catering service at University Center. President Morris presented to the Board copies of a proposed agreement with Slater-Minnesota Corporation and recommended approval. After discussion, Melvin C. Lockard moved that the Board authorize execution of the agreement presented, with the stipulation that the whole matter be reconsidered at the end of nine months of operation under this agreement. The motion was seconded by Harold R. Fischer, and the vote was as follows: Yea, Dr. Brown, Mr. Davis, Mr. Fischer, Mr. Maremont, Mr. Sturgis, Mr. Wham, Mr. Wilkins, Mr. Lockard.

The Board next considered the problem of zoning restrictions being sought for the area surrounding the Edwardsville Campus. President Morris indicated that zoning hearings were to be resumed in Madison County within the near future. He also indicated that because zoning by Madison County would be on a broad basis only, it seemed desirable to pursue negotiations with the City of Edwardsville for zoning rules to control the overall appearance of a business district close to the proposed campus. After discussion, Arnold H. Maremont moved that the Board refuse to proceed with contracts for construction of campus buildings until zoning protection is accomplished which is satisfactory to the Board. The motion was seconded by Dr. Martin Van Brown and was carried by unanimous vote.

John Page Wham, Chairman of the Board, requested authority to designate a representative of the Board to attend the annual meeting of the Association of Governing Boards of State Universities and Allied Institutions in Ann Arbor, Michigan, October 9-13, 1962. On motion of Kenneth L. Davis, seconded by Harold R. Fischer, the Board unanimously granted such authority. Mr. Wham then designated Dr. Martin Van Brown as the Board's representative to the annual meeting.

Chairman Wham announced that Arnold H. Maremont had asked to be relieved of his duties as a member of the Board of Trustees, University Retirement System of Illinois. Mr. Maremont moved that the Board elect Lindell W. Sturgis as the Board's representative on the Retirement System Board. The motion was seconded by George T. Wilkins and was carried by unanimous vote.

Duplicated copies of "Readings for Trustees," concerning the role of the college or university trustee, were distributed to the members of the Board. These comments had been sent to Mr. Maremont from Bard College in New York and were submitted for the information of Board members.

Mr. Maremont left the meeting at this time.

The Board approved the award of contracts for construction of additions to Morris Library in a special meeting held by conference telephone August 7, 1962. Recommendations for the award of contracts for electrical work and for temperature control were withheld at that time upon advice of University Architect Charles Pulley. President Morris presented a tabulation of bids received July 23, 1962, covering electrical work and temperature control together with Summary Sheet No. 2, dated September 10, 1962, recommending award of contract for electrical work to the Goldberg & O'Brien Elec Co., second lowest bidder. Mr. John S. Rendleman, Director of Business Affairs, explained that the low bid submitted by Anderson Electric Company had been withdrawn at the request of that company because of a patent error. Also recommended was rejection of bids for temperature control and rebidding based on new specifications. A copy of the tabulation and summary sheet was placed on file with the Secretary of the Board of Trustees.

After discussion, Melvin C. Lockard moved that the Board accept the bid of the next lowest bidder and award the contract as recommended; further, that the Board approve rejection of bids and rebidding of temperature control work. The motion was seconded by George T. Wilkins, and the vote was as follows, Yea, Dr. Brown, Mr. Davis, Mr. Fischer, Mr. Sturgis, Mr. Wham, Mr. Wilkins, Mr. Lockard; nay, none.

President Morris presented a request from the local chapter of the American Association of University Professors to transmit to each member of the Board of Trustees a statement adopted formally by the national organization concerning principles on faculty participation. The Recorder was instructed to have the material duplicated and distributed to the members of the Board.

The meeting was adjourned at 1:30 P.M.

OCTOBER, 1962

THE OCTOBER MEETING of the Board of Trustees of Southern Illinois University was held in the office of the Board on Friday, October 26, 1962, beginning at 9:30 A.M.

The following members of the Board were present: Dr. Martin Van Brown, Kenneth L. Davis, Harold R. Fischer, Melvin C. Lockard, Lindell W. Sturgis, John Page Wham. Mr. Maremont and Mr. Wilkins were absent.

Also present were President Delyte W. Morris, Vice-President Charles D. Tenney, Vice-President J. E. Grinnell, Vice-President Clarence W. Stephens, Director of Business Affairs John S. Rendleman, Acting Legal Counsel C. Richard Gruny, Business Manager and Treasurer Robert L. Gallegly, Assistant Director of Information Service C. A. Frazer; Ben Gelman, Reporter for *The Southern Illinoisan*, and Mrs. Louise Morehouse, Recorder for the Board of Trustees.

The Chairman presented the minutes of a regular meeting held September 14, 1962, copies of which had been forwarded to all members of the Board in advance of this meeting. On motion of Harold A. Fischer, seconded by Lindell W. Sturgis, the Board approved these minutes as presented.

Matters Presented by President Morris

THE FOLLOWING UNIVERSITY MATTERS were presented by the administration for consideration by the Board of Trustees:

INFORMATION REPORT ON THE VIET NAM PROGRAM

Dr. John O. Anderson, Associate Dean of the Graduate School and Coordinator of Research and Foreign Programs, was introduced to the members of the Board by President Morris. Maps of south Viet Nam were presented, together with a statement of existing conditions in Viet Nam, compiled by members of Southern Illinois University's faculty serving there under contract with the International Cooperation Administration. Copies of these documents were placed on file with the Secretary of the Board.

Mr. Anderson reviewed the demands of the Viet Nam programs, the contributions it is making, and some of the problems being encountered by those participating. He stated that the elementary education team has been quite successful in the matter of upgrading the requirements for teachers being trained under their direction, and that the work of the team in vocational-technical training was receiving excellent support from the Vietnamese government.

Several questions concerning housing conditions, security precautions, and language requirements were directed to Mr. Anderson by various members of the Board. A general discussion followed concerning the training of replacements for team members now serving, the expansion of educational facilities now under construction, and the acceptance of these programs.

Mr. Wham expressed the Board's appreciation of the presentation, and Mr. Anderson then left the meeting.

FORMAL APPROVAL OF AGREEMENT FOR THE LOAN FROM HOUSING AND HOME FINANCE AGENCY

In September, 1960, the Board approved application to the Housing and Home Finance Agency for a loan of $5,250,000 for additional student housing. The Loan Agreement which follows sets forth the terms and conditions under which these bonds will be issued.

We recommend that the Board of Trustees formally approve this Loan Agreement. It has been reviewed by the Business Manager and Treasurer, the Director of Auxiliary Enterprises, the firm of Chapman and Cutler, the fiscal agent Blyth & Company, Inc., and the Legal Counsel.

A Resolution entitled "Resolution Approving and Providing for the Execution of a Loan Agreement, and Numbered Contract No. H(402)-683 By and Between the Board of Trustees of Southern Illinois University and the United States of America" was introduced by President Delyte W. Morris:

Resolution

be it *Resolved* By the Board of Trustees of Southern Illinois University, in regular session assembled, as follows:

SECTION 1. The pending Loan Agreement and Numbered Contract No. H (402)-683, and relating to the erection on the campus of Southern Illinois University an educational institution of higher learning located in Carbondale, Illinois, of three dormitories to provide housing and apartment facilities for approximately 1,026 men students, one dormitory to provide housing and apartment facilities for approximately 816 women students, and one Commons Building to provide dining, recreation, and apartment facilities for approximately 1,842 students, by and between the Board of Trustees of Southern Illinois University and the United States of America, is hereby in all respects approved.

SECTION 2. The Chairman of the Board of Trustees of Southern Illinois University, John Page Wham, is hereby authorized and directed to execute the said Loan Agreement in three counterparts on behalf of the said Board of Trustees of Southern Illinois University and the Secretary of said Board of Trustees, Melvin C. Lockard, is hereby authorized and directed to impress and attest the official seal of the Board of Trustees of Southern Illinois University, on each such counterpart and to forward such counterparts to the Housing and Home Finance Agency, together with such two other documents relative to the approval and execution of such counterparts and to this Resolution as may be required by the Government.

Said Resolution and the proposed Loan Agreement described therein were then read in full and discussed and considered.

Lindell W. Sturgis then moved the adoption of the Resolution as introduced and read. Melvin C. Lockard seconded the motion, and, on roll call, the following voted "Aye": Dr. Martin Van Brown, Kenneth L. Davis, Harold R. Fischer, Melvin C. Lockard, Lindell W. Sturgis, John Page Wham.

The Chairman of the Board thereupon declared the motion carried and the Resolution adopted as introduced and read. A copy of the Loan Agreement was placed on file with the Secretary of the Board.

BOND COUNSEL, PAYING AGENTS, AND CONSTRUCTION ACCOUNT DEPOSITORIES FOR PARK CENTER RESIDENCE HALLS

Certain appointments should be made at this time so that approval of the Housing and Home Finance Agency to proceed with them may be obtained.

It is recommended that the Board appoint the firm of Chapman & Cutler of Chicago, Illinois, as bond counsel for the purposes of carrying out the Loan Agreement and Numbered Contract No. H(402)-683 just approved. The Board is also requested to designate a banking corporation with corporate trust powers, authorized to do business in this state, as paying agent and depository of the bond and interest sinking fund account. Such a bank must have combined capital and surplus of at least one million dollars and be subject to supervision or examination by federal or state authority. It is recommended that an alternate paying agent be designated, to be the paying agent bank's correspondent bank in New York City. It is further recommended that the Carbondale National Bank and the First National Bank in Carbondale, both of Carbondale, Illinois, be designated construction account depositories for the purpose of this Loan Agreement.

On motion of Melvin C. Lockard, seconded by Kenneth L. Davis, the Board approved the appointment of Chapman & Cutler of Chicago, Illinois, as bond counsel; named The Northern Trust Company, Chicago, Illinois, as paying agent and depository of the bond and interest sinking fund account with that bank's correspondent bank in New York City as alternate paying agent; and approved the Carbondale National Bank and the First National Bank, both of Carbondale, Illinois, as depositories for construction account funds. The motion was carried by unanimous vote.

RESOLUTION CONCERNING STUDENT HOUSING ON AND OFF CAMPUS

The Board of Trustees of Southern Illinois University have a deep concern for the environment in which students live as they pursue their educational program at the University.

Since 1913 Southern Illinois University has provided housing for some students. By action of the Board of Trustees an amount of $12,200,000 has been borrowed since 1960 to provide for 2,451 single students and 272 married students in permanent buildings.

On the Carbondale Campus the enrollment rise from 3,086 students in 1950 to 11,619 in the fall of 1962 has been in part due to the housing made available by the University. In order to meet the demands for higher education in the immediate future, the Board of Trustees recognizes that at least 9,000 single students must be housed in University owned and operated residence halls if the enrollment on the Carbondale Campus can be limited to 18,000 students.

Carbondale and the communities within a commuting distance of the Carbondale Campus and its operations at Southern Acres and Little Grassy can be expected to provide housing for at least 9,000 students. It is hoped that the University will in the very near future be able to require that its students reside only in public accommodations which adhere to satisfactory standards regarding safety, study conditions, health and sanitation, and supervision.

During the last ten years' expansion of the Carbondale Campus some students have been obliged to live both off-campus and on-campus under conditions which were below accepted minimum standards. Temporary barracks used by the University are only to be used until such time as other adequate housing is available.

The educational approach to encourage the improvement of off-campus facilities has resulted in excellent cooperation between many householders who have provided students with quality accommodations and worked with the University officials carrying out the University's programs of inspecting and suggesting improvements for these spaces.

The work of the officials of the Housing Office has resulted in much improvement of housing facilities both on-campus and off-campus. The University officials concerned are to be commended for their untiring efforts in behalf of the students of Southern Illinois University, and for their resolute adherence to proper standards. Similarly, the Carbondale City officials, community residents, and area and state organizations and agencies are commended for their efforts to improve the environment for the welfare of students and staff. Future cooperative efforts leading to better street lighting, improved sidewalks, mass transportation programs, bicycle paths, and improved recreational areas can be expected.

BE IT *Resolved*, Therefore, That the Board of Trustees reaffirms that the Student Affairs Office through the Coordinator of Housing and Supervisor of Off-Campus Housing "maintain a service file of acceptable living quarters for University students and establish and promote satisfactory standards for such quarters and a system for their inspection and rating," and

BE IT FURTHER *Resolved*, That within a six-month period, a report is to be submitted to the Board of Trustees on the standards established for acceptable living centers in which undergraduate students will be expected to reside and in which graduate students will be encouraged to reside effective with the fall quarter of 1963.

After discussion, Harold R. Fischer moved that the Board adopt the resolution presented. The motion was seconded by Dr. Martin Van Brown and was carried by unanimous vote.

AWARD OF CONTRACT FOR TEMPERATURE CONTROLS, MORRIS LIBRARY ADDITION

On August 7, 1962, the Board approved the award of contracts for the construction of additions to Morris Library. At that time recommendations for the award of contracts for electrical work and for temperature controls were withheld upon advice of University Architect Charles Pulley. At the meeting held September 14, 1962, the Board approved the award of contract for electrical work to Goldberg & O'Brien Electric Co., second lowest bidder. The bids for temperature controls were rejected and new bids authorized, based on revised specifications.

New bids for temperature controls were received October 23, 1962. A tabulation of the bids received was presented, and a copy was placed on file with the Secretary of the Board. President Morris stated that the University Architect recommended that contracts be awarded to the low bidders, as follows:

Base Proposal TC-1: Install temperature control, Morris Library Addition	Minneapolis-Honeywell Regulator Company 2146 Hampton Avenue St. Louis 10, Missouri	$	$ 48,721.00
Base Proposal TC-2, Div. I: Connect mechanical equipment areas, Library Addition, to campus central control panel; enter into five year service contract	Powers Regulator Company 2114 Fifty-Ninth Street St. Louis, Missouri	85,859.00	
Alt. Proposal TCA-2, Div. I: Omit five-year service contract		–3,950.00	$ 81,909.00
Total contracts awarded			$130,630.00

On motion of Lindell W. Sturgis, seconded by Melvin C. Lockard, the Board approved the award of contracts for temperature controls, as recom-

mended. The vote was as follows: Yea, Dr. Brown, Mr. Davis, Mr. Fischer, Mr. Sturgis, Mr. Wham, Mr. Lockard; nay, none.

REPORTS ON CURRENT AND PENDING MATTERS

A resolution was adopted by the Board of Trustees at the regular meeting held September 14, 1962, concerning zoning protection in the area of the proposed Edwardsville Campus. President Morris reported briefly to the members of the Board concerning public reaction to the resolution, and expressed the hope that the City of Edwardsville would, in the near future, enact both zoning and building control regulations.

Copies of the proceedings of the State Board of Higher Education were distributed. These documents were duplicated and prepared at the suggestion of Chairman John Page Wham.

The meeting was adjourned at 3 P.M.

DECEMBER, 1962

THE DECEMBER MEETING of the Board of Trustees of Southern Illinois University was held in the office of the Board on Saturday, December 8, 1962, beginning at 10 A.M.

The following members of the Board were present: Dr. Martin Van Brown, Kenneth L. Davis, Harold R. Fischer, Melvin C. Lockard, John Page Wham, George T. Wilkins. Mr. Maremont and Mr. Sturgis were absent.

Also present were President Delyte W. Morris, Vice-President Charles D. Tenney, Vice-President J. E. Grinnell, Vice-President Clarence W. Stephens, Director of Business Affairs John S. Rendleman, Acting Legal Counsel C. Richard Gruny, Business Manager and Treasurer Robert L. Gallegly, Director of Information Service William H. Lyons; Ben Gelman, Reporter for *The Southern Illinoisan*, and Jane Crichton, Acting Recorder for the Board of Trustees.

The Chairman presented the minutes of a regular meeting held October 26, 1962, copies of which had been forwarded to all members of the Board in advance of this meeting. On motion of Kenneth L. Davis, seconded by Melvin C. Lockard, these minutes were approved as presented.

Matters Presented by President Morris

The FOLLOWING UNIVERSITY MATTERS were presented by the administration for consideration by the Board of Trustees:

PRESENTATION OF GENERAL CLASSROOMS BUILDING PLAN AND COMMUNICATIONS BUILDING PLAN

Mr. Charles M. Pulley, University Architect, was introduced to the members of the Board by Mr. Rendleman. He in turn introduced Mr. Edward Tourtelot of Mittelbusher and Tourtelot, Architects-Engineers

for the General Classrooms Building, and Mr. Lawrence Lattin Smith of L. Lattin Smith and Associates, Architects-Engineers for the Communications Building.

Mr. Tourtelot outlined the special features of the general classrooms lecture hall and related offices-classrooms building, mentioning in particular the central location of the audio-visual facilities in the lecture hall building for access to all four auditoria. In the offices-classrooms building he emphasized the use of dry-wall partitions for flexibility in accommodating changes in class sizes. The facilities provide thirty-four classrooms, counting the auditoria as classrooms, and ninety-four offices with facilities for 167 desks.

Mr. Smith pointed out the basic planning features of the Communications Building. The areas requiring large cubic footage, such as the theater, theater storage, radio-TV studios, the printing laboratories, and the photography studios are placed together for ready access to service driveways. The dean's office and lounge for theater use serve as a buffer area between this grouping and the facilities for use by other specialties, such as the speech correction laboratories constructed to provide absolutely soundproof conditions, and the general speech and speech correction classrooms. The air conditioning compressor is to be located below this building to service the general classrooms, also.

In response to questions asked by members of the Board, it was determined that the addition of 4,410 student stations in the first stages of these new buildings would still not entirely meet the University's needs for classroom space, although it would double present facilities. Additional space will be required to accommodate expected increased enrollment by the time construction has been completed. In response to a question asking if the buildings should not now be constructed larger to take care of future needs, it was pointed out that many features of these buildings are experimental in nature, and it is desirable to use the facilities before determining whether to expand in exactly the same manner. Both building areas are so located that significant expansion is possible. It was mentioned that recommendations of the Educational Facilities Laboratory in New York have been incorporated into the planning of these buildings and that our architects worked with that laboratory closely in planning the buildings for the Edwardsville Campus, also.

On motion of Kenneth L. Davis, seconded by Harold R. Fischer, the Board approved the recommendations to proceed with construction of these buildings according to the plans presented. The vote was as follows: Yea, Dr. Brown, Mr. Davis, Mr. Fischer, Mr. Wham, Mr. Wilkins, Mr. Lockard; nay none.

Chairman John Page Wham expressed the Board's appreciation for the presentations, and Mr. Pulley, Mr. Tourtelot, and Mr. Smith then left the meeting.

President Morris explained that it was desirable to place before the Budgetary Commission the most important capital additions needed beyond those provided by the present Bond Issue funds. The building and capital improvements request includes recommendations for building needs beyond the availability of funds included in the Bond Issue, remaining land acquisition needs, planning funds so that appropriated funds can be more quickly used, and matching funds to take advantages of opportunities available by both the Federal Government and private agencies.

Copies of "Budget Request for Movable Equipment for Buildings to be Erected from Universities Bond Issue Funds" were also presented, as follows:

BUDGET REQUEST FOR MOVABLE EQUIPMENT FOR BUILDINGS TO BE ERECTED FROM UNIVERSITIES BOND ISSUE FUNDS

The Universities Bond Issue provided funds for construction of new buildings and acquisition of fixed equipment therefor. However, the Attorney General of the State of Illinois advised late in 1961 that the cost of acquiring movable equipment for the buildings to be financed out of the Bond Issue funds could not be charged to those funds.

Southern Illinois University requests $6,505,806 for movable equipment for new buildings on both campuses scheduled for occupancy during the 1963–1965 biennium.

Details of buildings and amounts of movable equipment funds requested follow:

President Morris explained that the request for funds for movable equipment is necessary in order to use the buildings to be constructed with Bond Issue funds. Requests of this nature had been discussed in previous meetings,

and the reports presented confirmed previous understandings of building needs. A copy of the complete document was placed on file in the office of the Board.

On motion of Harold R. Fischer, seconded by Kenneth L. Davis, the Board approved the budget requests for buildings and other capital improvements and the budget request for movable equipment, as recommended. The vote was follows: Yea, Dr. Brown, Mr. Davis, Mr. Fischer, Mr. Lockard, Mr. Wham, Mr. Wilkins; nay, none.

REPORTS ON CURRENT AND PENDING MATTERS

President Morris suggested that a representative of the Board attend the 18th National Conference of Higher Education to be held in Chicago, Illinois, March 3 through March 6, 1963. The Board unanimously expressed opinion that Mr. Wham attend this meeting.

President Morris presented to the Board a joint proposal by the University School of Agriculture and the United States Forestry Service for the location of a head house and greenhouse unit which would be suitable for experimental planning and maintaining of a collection of superior trees for breeding. This joint recommendation, he said, had his endorsement and would do much to help the interrelation between the University forestry program and the United States Forest Service. Upon resolution duly made and seconded the administration was authorized to execute a fifty-year lease, with an option of renewal for an additional forty-nine years, of University acreage not to exceed forty acres for this purpose.

President Morris then presented a proposal made by the Madison County Board regarding the relocation of Poag Road along the northern edge of the Edwardsville Campus. It was the desire of the Madison County Board to relocate this road from its present connection with Grand Street to one at St. Louis Street and through a part of the University property as shown in plans on file with the Board. Upon motion duly made and seconded it was resolved to grant a seventy-foot right-of-way to Madison County in the location desired, but conditioned upon the desired improvement's being accomplished. The President was authorized to execute the right-of-way agreement.

President Morris then directed the Board's attention to their contract with Hellmuth, Obata and Kassabaum for architectural services in connection with the University Center Building on the Edwardsville Campus. He indicated that in the agreement as it now stood no provision was made for partial payment for services prior to the time that bonds were sold. At the present time, the University Center account at Edwardsville, consisting of fees collected from students, amounts to approximately $160,000, and money is available to make a partial payment. He also indicated that at present this money was invested so there is a return to the University.

He pointed out that it would be necessary to amend the contract to provide for this payment, but that the amendment must provide for some compensation from the architects to the University. After discussion, it was duly moved and seconded that the administration be authorized to renegotiate this agreement and that upon the obtaining of justifiable consideration from the architect, a provision for earlier partial payment to the architects was authorized. The determination of justifiable consideration was to be made by the Chairman of the Board. Upon roll call, the vote was as follows: Yea, Dr. Brown, Mr Davis, Mr. Fischer, Mr. Lockard, Mr. Wham, Mr. Wilkins; nay, none.

President Morris then reported that Vice-President Grinnell was making an official University visit to Saigon in early 1963, for inspection of the University's contract operations. The United States Agency for International Development has requested that he extend his tour to include Vientiane. The USAID is to bear the costs of travel, as it will the cost of travel to Saigon, but the purpose of the extension will be the observation of elementary and technical training programs in Vientiane. It is expected that as a result of this trip, the University will be requested to establish programs comparable to those in Saigon at selected Vientiane locations. It was pointed out that if such contract was entered into, it would be necessary to get the approval of the Board of Higher Education. It was the consensus of the Board that Dr. Grinnell should extend his trip to include Vientiane.

In connection with reporting the University's participation in overseas programs, President Morris indicated that there was in the formative stage a suggestion for the establishment of a junior college in Saigon, which would serve all of Southeast Asia. He pointed out that other universities have established junior colleges throughout the world. The sensitivity of the public relations aspect of the program was discussed, and the administration was authorized to investigate and report back to the Board.

Current reports of the proceedings of the Board of Higher Education were distributed to members of the Board.

The meeting was adjourned at 3:30 P.M.

Matters Presented by President Morris

THE FOLLOWING UNIVERSITY MATTERS were presented by the administration for consideration by the Board of Trustees:

PRESENTATION OF BUILDING PLANS FOR UNIVERSITY PARK RESIDENCE HALLS, INTERIOR REMODELING OF MORRIS LIBRARY, AND FOR TECHNOLOGY BUILDING

Mr. Charles M. Pulley, University Architect, was introduced to the members of the Board by President Morris. Mr. Pulley in turn introduced Mr. G. H. Tsuruoka, representative of Burnham & Hammond, Architects-Engineers for Morris Library additions; Mr. Richard M. Bennett, representative of Loebl Schlossman & Bennett, Architects-Engineers for University Park Residence Halls; and Mr. Charles W. Brubaker, representative of Perkins & Will, Architects-Engineers for the Technology Building. The locations of University Park Residence Halls and the Technology Building, with relation to existing campus buildings, were briefly explained. Using models and charts, the representatives of the architectural firms described in detail the basic planning features for the University Park Residence Halls group, the Technology Building, and interior remodeling of Morris Library. Mr. Ralph O. McCoy, Director of University Libraries, was also introduced to the members of the Board and outlined the general provisions of the plans submitted for the additions to the library building and for interior remodeling.

On motion of Arnold H. Maremont, seconded by Melvin C. Lockard, the Board approved the administration's recommendation of the master plans presented. Also approved was the administration's recommendation to proceed with construction of University Park Residence Halls group, the Technology Building, and interior remodeling of Morris Library according to the plans presented, modified to include air conditioning in the high-rise dormitory. The vote was as follows: Yea, Dr. Brown, Mr. Davis, Mr. Maremont, Mr. Sturgis, Mr. Wham, Mr. Lockard; nay, none.

Mr. Wham expressed the Board's appreciation for the presentations of building plans, and Mr. Pulley, Mr. Bennett, Mr. Brubaker, Mr. Tsuruoka, and Mr. McCoy then left the meeting.

REPORT ON THE AGRICULTURAL PROGRAM

From time to time we present to the Board of Trustees a report on some specific aspect or function of the University. Herewith, for the information of the Board, is a summary of the work of the School of Agriculture:

History

Agriculture has been a part of the educational program at Southern Illinois University since 1913, when a Department of Agriculture was organized to provide instruction in agricultural courses in the institution's teacher-training program. At about the same time the first part of the University's experimental farm, a sixty-acre tract now used for campus purposes, was purchased.

The department continued as a one or two man teaching unit until 1946, when two additional staff members were employed. Since 1950 growth in staff and facilities has been rapid, permitting the addition of more specialized courses and the development of a research program in agriculture.

From 1946 until 1953 the Department of Agriculture was a unit within the College of Vocations and Professions. On September 17, 1953, the Board of Trustees established the Division of Rural Studies to serve as the instrument of the University for providing instruction, demonstration, and consultation in agriculture, forestry, and other activities directed toward the rural development of Southern Illinois. On April 28, 1955, the Board established the School of Rural Studies. The original components of this new school were the Department of Agriculture, and the University demonstration and test farms. In cooperation with the Graduate School, the School of Rural Studies was to conduct agricultural research and sponsor cooperative experiment stations. On July 12, 1955, the Board changed the name of the School of Rural Studies to the School of Agriculture as a result of legislative action which authorized Southern Illinois University to grant the Bachelor of Science in Agriculture degree.

Objective

The objective of the Southern Illinois University School of Agriculture is to raise the level of living of all people; specifically

1. To contribute to more efficient use of the agricultural land, labor, and capital of Southern Illinois in a manner consistent with national welfare.
2. To assist industries and service agencies closely related to agriculture.
3. To cooperate with and actively aid the general Southern Illinois University policy of establishing sufficient facilities and a broad program for the development of all phases of human life and betterment.

In order to accomplish the objective, the Southern Illinois University School of Agriculture:

1. Places major emphasis on agricultural instruction.
2. Implements instruction by evaluating and using research findings of this and other institutions and recommending those agricultural enterprises and practices which are best adapted in Southern Illinois.
3. Conducts, in so far as facilities and resources permit, research which appears primarily applicable to Southern Illinois.

In serving Southern Illinois, the School also attempts (a) to inspire young people to cultivate to the utmost their capabilities through formal and informal education and to aid them in doing so, (b) to encourage and assist farmers both young and old who are needed on farms to keep abreast of changing technology in the agricultural arts and sciences, (c) to inform the under-employed farmers and rural citizens of the area concerning off-farm opportunities and to provide training programs to qualify them for such jobs, and (d) to participate with others in the creation and development of new and expanded industrial and professional employment in Southern Illinois.

The School schedules in cooperation with farmers and their organizations important annual short courses dealing with specialized subjects of concern to farmers of the area. Such courses include Swine Day, Dairy Day, Agronomy Day, the Farm Credit Workshop, and the Cooperative Workshop. It participates in numerous other farm programs of one day or longer, given on and off the campus and sponsored by farm organizations, by commodity-oriented organizations of producers, by cooperatives, and by a wide range of other farm and business interests. Members of its staff serve as principal speakers on agricultural topics for a large number of shorter meetings of farmers, civic clubs, business men, and other groups. They also participate actively in national professional meetings and activities in their fields of specialization.

In each functional area, the School of Agriculture maintains close liaison with the College of Agriculture of the University of Illinois to avoid unjustified duplication of efforts. The School, however, has not hesitated to blaze new trails in education, research, or service when older programs appeared outmoded. Its recent origin has permitted it to evaluate existing programs at other universities and to synthesize its own program to fit the requirements of this area and of this modern day.

The horizons originally established for the School have been greatly widened beyond Southern Illinois. Although this area remains its primary concern, the School's educational programs now reach every area of this state and into many foreign countries. In fact, emphasis is being given to the development of programs to improve the training of foreign students in the United States. A summer orientation program in English and agriculture for foreign students of agriculture was presented for the second time in 1962. Seminars and specialized courses in problems of foreign agriculture are offered.

Limitations and Advantages

Among more important limitations of Southern Illinois agriculture which must be corrected are the following:

1) The majority of the farm businesses at present are too small in volume to support a farm family satisfactorily.

2) Many Southern Illinois farm businesses are too broadly diversified. Others are placing emplasis on farm enterprises which are not well adapted economically to the location and resources of the area.

3) Marketing channels and outlets are inadequate for some Southern Illinois field and forest products.

4) Low fertility level and frequent internal drainage limitations of Southern Illinois soils require a higher level of technical and managerial ability than is now prevalent.

5) Low rates of livestock production in Southern Illinois, as compared with competing areas of the state and nation, indicate a need for improvement of managerial ability applied to these important enterprises.
6) The existence of a surplus of human labor in some of Southern Illinois contributes to delaying the adoption of technical developments aimed at using manpower more efficiently.

In spite of these limitations, Southern Illinois agriculture operates in an environment possessing certain desirable characteristics or advantages. Geographically the area is near the center of population of the United States. Climatically the area is favored with a more adequate annual rainfall and a longer growing season than are many competing areas. This is a transition zone where typically northern and southern crops meet. Transportation is excellent for moving area agricultural products to large consuming and processing centers.

Organization

In June, 1956, the Board of Trustees of Southern Illinois University approved an internal arrangement within the School of Agriculture providing for departments of Agricultural Industry, Animal Industry, and Plant Industry. The fourth department, Forestry, was authorized by Board action in October, 1957. Bachelor of Science degrees in agriculture are obtained by majors in each of the four departments. On July 25, 1957, the departments of Agricultural Industry, Plant Industry, and Animal Industry, and on March 2, 1961, the Department of Forestry were approved to offer graduate work at the Master's degree level.

As a result of the recent development of the School of Agriculture, its programs have not been fragmented into highly specialized areas. It has only four departments, each of which covers a broad field of knowledge within the agricultural arts and sciences. This contrasts with the situation in most agricultural colleges, which commonly have ten or more departments. At the University of Illinois, the College of Agriculture has ten teaching departments covering the same areas as the four at Southern. The comparable number is fourteen at the University of Missouri and twelve at Purdue University.

Each department at Southern has the responsibility for instruction, research, and area service within its subject matter area. The chairman of each department reports to the Dean of Agriculture on instructional matters and on research involving University Farms. On this latter and on other research, he reports to the Dean of the Graduate School. He also cooperates with the Director of Area Services and the Dean of University Extension on off-campus service and instructional programs.

Staff

The thirty-three member staff of the School of Agriculture, twenty-three of whom have completed the doctorate degree, served 527 undergraduate agricultural majors and forty-one graduate majors in fiscal 1961–62. A total of fifty-eight active research projects are in progress. A comprehensive adult education and demonstration program was conducted through fifty-five adult courses, twelve workshops, and numerous speaking engagements and consultant services.

Adjunct professorships are available to professional staff members of the Cooperative Forestry Research Center and the Small Fruits Research Station who have

the academic qualifications for such positions. The staff of these two Federal organiza tions is housed in the Agriculture Building. At present three staff members of th Forestry Center and one at the Small Fruits Station are adjunct professors. In addi tion, the Director of the Natural History Survey, State of Illinois, has been grante this title. Although the adjunct professorship is principally a courtesy arrangemen because it carries no responsibility to the University for participation in instructio or research, the recipients of these titles do contribute on an informal basis to program of the School of Agriculture.

In addition to these positions, a visiting professorship, normally rotated annuall among the departments, is regularly assigned to the School of Agriculture. Tw secretaries and a half-time writer are the administrative civil service personne assigned to the school.

Agricultural Land

The School of Agriculture currently is responsible for the operation of approx imately 1800 acres of land adjacent to the campus. This acreage is administered in th following units: (1) the University Farms, (2) the Illinois Horticultural Experimen Station, (3) the Southern Illinois Cooperative Agronomy Research Center, (4) th U.S.D.A. Regional Cooperative Small Fruit Research Station, and (5) the Tes Farms.

The University Farms are devoted to teaching, research, and demonstration in soils, crops, livestock, dairy, poultry, and a limited amount of forestry. Facilitie include a farm service center for storage and maintenance of equipment and fo headquarters of the student labor and civil service workers in the farm labor pool; a temporary feed center for preparing and mixing rations for livestock; and teaching-research centers for poultry, dairy, sheep, swine, and beef.

The Illinois Horticultural Experiment Station, activated in 1951, is jointly operated by Southern Illinois University and the University of Illinois, as is th Southern Illinois Cooperative Agronomy Research Center which was activated in 1954. The Small Fruit Research Station, activated in 1959, is cooperatively operated by the United States Department of Agriculture and Southern Illinois University. These three units are predominantly research operations, with a limited amount o demonstration.

The Test Farms, four of which have been activated since 1956, are farm management experimental and teaching units. Two of the originally activated test farm units recently have been discontinued as such to adjust to projected campus development plans.

A major portion of the capital development work on all agricultural land units has been planned by our agricultural engineers working with the appropriate production specialists. Materials for construction were ordered by the dean's office. Finally the construction of all farm structural units has been supervised by the agricultural engineers.

Forest Land

Prior to 1960 the Department of Forestry used scattered small tracts of suitable land in the University Farms for teaching and research purposes. In addition, federal, state and privately owned forest lands were used as a base of operations for the annual spring forestry training camp.

Since 1950 the University has acquired six hundred acres of forest and abandoned farm land adjacent to the Giant City State Park area on the west and to the University Little Grassy Outdoor Education area on the east. This area is to be developed as a University Forest and to serve as a permanent base of operation for future forestry training camps.

During the 1962 Spring Forestry Training Camp session a major part of student laboratory work was conducted on the recently acquired six hundred acre tract. Using the data thus assembled and additional personal observation made during the period of June 6 through July 2, 1962, Visiting Professor Robert I. Ashman of the Department of Forestry prepared "A Plan for the Management of the Southern Illinois University Forest," Southern Illinois University, July 2, 1962.

The development of the University Forest will be a valuable asset in the University's forestry training program. It will provide a readily accessible teaching forest where classes can carry out exercises in cultural and mensurational practices. The area can serve as a site for both short-term and long-term forestry research because present types, ages, and conditions of stands are such that many of the pressing forestry problems of the region can be attacked. Such an area will provide a logical site for camp location and field work in the spring forestry training camp. The acquisition and development of the University Forest will assist in meeting accreditation requirements of the Society of American Foresters. Finally, the trails, streams, ledges, and general forest environment will add to the recreational facilities of the University and the community.

Results of the Program

During the past fourteen years, 402 students with agricultural majors have been graduated with the Bachelor of Science degree and forty-two with the Master's degree. Of those whose occupations were known in January, 1962, one-fourth were working in industry, usually of an agricultural type; one-sixth were in the armed services; one-sixth were teaching in elementary schools, high schools, or universities; one-sixth were farming; one-fifth were doing graduate work; and those remaining were in other occupations.

Bachelor of Science and Master of Science graduates in agriculture from Southern Illinois University have completed or are at present continuing their graduate work at the following institutions: California, Cornell, Illinois, Iowa State, Maryland, Michigan State, Minnesota, Nebraska, North Carolina State, Oregon, Pennsylvania, Purdue, Virginia Polytechnic Institute, Wisconsin, and Wyoming. Performance of Southern's agricultural graduates at these reputable graduate schools has proven highly satisfactory. As a result there is a strong backlog for additional qualified bachelor's and master's degree graduates who wish to continue work on the doctorate degree.

Results of research are distributed through the conventional channels such as professional journals, trade publications, and the like. Twelve Southern Illinois University agricultural bulletins have been published to date. In addition, mimeographed leaflets are released through the Illinois Horticultural Experiment Station and the Agronomy Research Center. Other research data have been presented in bulletins published by the University of Illinois. Annual field days are held in swine, dairy, field crops, horticultural crops, and soil conservation. Locally derived research data are used in college courses, speeches, and consultant services.

The increased esteem and confidence Southern Illinois farm people have for the agricultural program are evidenced by greater frequency of requests for consulting services, by increasing attendance at annual field days, and by a rising number of requests for assistance in adult education programs. Increased requests for staff participation in national and international scientific and educational endeavors are favorable reflection on both the caliber of the staff and the effectiveness of the program. The fact that agricultural majors since 1950 have increased from 135 to 527, a 290% increase, reflects favorable reaction on the part of farm fathers and mothers and their sons to the college training program in agriculture at Southern Illinois University.

Mr. Wendell E. Keepper, Dean of the School of Agriculture, was introduced to the members of the Board by President Morris. He spoke briefly concerning the agricultural program and elaborated on various aspects of the program as outlined in the information report above.

Mr. Wham expressed the Board's appreciation for the presentation, and Mr. Keepper then left the meeting.

APPROVAL FOR INCREASING APPLICATION FOR STUDENT HOUSING

The Board of Trustees has recently approved an agreement issuing $10,500,000 in bonds for the construction of Stage I of the University Park Residence Halls.

On November 9, 1961, the Board authorized and directed that an application be made to the Housing and Home Finance Agency of the Federal Government for a loan of $4,000,000 to finance one-half the estimated cost of Stage II of the University Park Residence Halls project. This second authorization was to provide housing for

1,600 students. Since November, 1961, more refined cost estimates of the cost of Stage II have been made, and it now appears that the total cost of the project will be $9,700,000, instead of $8,000,000.

It is therefore requested that the following resolution be adopted:

Resolution

WHEREAS, the Board of Trustees of Southern Illinois University did on November 9, 1961, authorize the administration of the University to make application to the Housing and Home Finance Agency of the Federal Government for a loan of $4,000,000 to finance one-half of the estimated cost of construction of Stage II of the University Park Residence Halls project; and

WHEREAS, after investigation and study it was determined that the Stage II project cost for housing 1,600 students would be $9,700,000 instead of the previously estimated $8,000,000; now, therefore, be it

Resolved by the Board of Trustees of Southern Illinois University that the administration is authorized to increase the application to the Housing and Home Finance Agency of the Federal Government to $4,850,000, being one-half of the total estimated construction cost of $9,700,000.

On motion of Dr. Martin Van Brown, seconded by Lindell W. Sturgis, the Board authorized the administration to increase the application for loan to $4,850,000, as requested. The vote was as follows: Yea, Dr. Brown, Mr. Davis, Mr. Maremont, Mr. Sturgis, Mr. Wham, Mr. Lockard; nay, none.

INDEPENDENT AUDIT FOR 1962–1963

It is recommended that the audit firm of Peat, Marwick, Mitchell & Company be approved by the Board of Trustees to make the independent audit of the accounts and financial operations of Southern Illinois University for the fiscal year ending June 30, 1963, and that the administration be authorized to enter into a joint agreement between Mr. Robert G. Rockwell, Auditor General; Southern Illinois University; and Peat, Marwick, Mitchell & Company for the audit. The Auditor General concurs with this recommendation and will again share in the cost of the audit.

On motion of Dr. Martin Van Brown, seconded by Kenneth L. Davis, the Board approved the audit firm recommended and authorized the administration to enter into a joint agreement as stated. The vote was as follows: Yea, Dr. Brown, Mr. Davis, Mr. Maremont, Mr. Sturgis, Mr. Wham, Mr. Lockard; nay, none.

ACQUISITION OF SURPLUS PROPERTY

The State Office for Disposal of Surplus Federal Property has advised the University of the availability of 183 acres of land three miles WNW of Mascoutah and eight miles ENE of Belleville. This property has been inspected by University

personnel in the School of Agriculture, and they have deemed its acquisition desirable for a test and demonstration plot in the Madison-St. Clair Counties area. The long-term potential use of the property would seem to be even greater.

An application for the acquisition of the property without cost to the University must be accompanied by a Resolution of the Board of Trustees authorizing application. The following resolution is submitted with recommendation for adoption:

Resolution

WHEREAS, certain real property owned by the United States, located in the County of St. Clair, State of Illinois, has been declared surplus and is subject to assignment for disposal for educational or public health purposes by the Secretary of Health, Education, and Welfare, under the provisions of Section 203 (k) (1) of the Federal Property and Administrative Services Act of 1949 (63 Stat. 377), as amended, and rules and regulations promulgated pursuant thereto, more particularly described as follows:

183 acres of land three miles WNW of Mascoutah and
eight miles ENE of Belleville,

WHEREAS, the Board of Trustees of Southern Illinois University needs and can utilize said property for educational purposes in accordance with the requirements of said Act and the rules and regulations promulgated thereunder;

NOW, THEREFORE, BE IT *Resolved*, that the Board of Trustees of Southern Illinois University shall make application to the Secretary of Health, Education, and Welfare for and secure the transfer to it of the above-mentioned property for said use upon and subject to exceptions, reservations, terms, covenants, agreements, conditions, and restrictions as the Secretary of Health, Education, and Welfare, or his authorized representative, may require in connection with the disposal of said property under said Act and the rules and regulations issued pursuant thereto; and

BE IT FURTHER *Resolved* that the Board of Trustees of Southern Illinois University has legal authority, is willing and is in a position to assume immediate care and maintenance of the property, and that Delyte W. Morris, President, be and he is hereby authorized, for and on behalf of the Board of Trustees of Southern Illinois University, to do and perform any and all acts and things which may be necessary to carry out the foregoing resolution, including the preparing, making, and filing of plans, applications, reports, and other documents, and execution, acceptance, delivery, and recordation of agreements, deeds, and other instruments pertaining to the transfer of said property, and the payment of any and all sums necessary on account of the purchase price thereof or on account of fees or costs incurred in connection with the transfer of said property for surveys, title searches, appraisals, recordation of instruments, or escrow costs.

On motion of Dr. Martin Van Brown, seconded by Melvin C. Lockard, the Board adopted the resolution presented, authorizing the administration to make application for surplus property. The vote was as follows: Yea, Dr. Brown, Mr. Davis, Mr. Maremont, Mr. Sturgis, Mr. Wham, Mr. Lockard; nay, none.

The meeting was adjourned at 12:30 P.M.

MARCH, 1963

THE MARCH MEETING of the Board of Trustees of Southern Illinois University was held in the President's Staff Office, Edwardsville Campus, March 6, 1963, beginning at 9:30 A.M.

The following members of the Board were present: Dr. Martin Van Brown, Harold R. Fischer, Arnold H. Maremont, Ray Page, Lindell W. Sturgis, John Page Wham. Mr. Davis and Mr. Lockard were absent.

Also present were President Delyte W. Morris, Vice-President J. E. Grinnell, Vice-President Clarence W. Stephens, Director of Business Affairs John S. Rendleman, Acting Legal Counsel C. Richard Gruny, Assistant Legal Counsel L. James Struif, Business Manager and Treasurer Robert L. Gallegly, Director of Information Service William H. Lyons; Ben Gelman, Reporter for *The Southern Illinoisan*, Ande Yakstis, Reporter for the *Alton Telegraph*, Mel Luna, Reporter for *East St. Louis Evening Journal*, Bernard J. Wander, Reporter for *Edwardsville Intelligencer*, and Mrs. Louise Morehouse, Recorder for the Board of Trustees.

Mr. Lindell W. Sturgis was appointed by the Chairman to serve as Secretary *pro tempore*.

The Chairman presented minutes of a regular meeting held February 1, 1963, copies of which had been forwarded to all members of the Board in advance of this meeting. On motion of Arnold H. Maremont, seconded by Dr. Martin Van Brown, these minutes were approved with one correction.

In compliance with Part II, Article V, Section 5 of the By-Laws of the Board of Trustees, notice was mailed to the members of the Board on February 20, 1963, of the intention to request amendment to Part III, Article III, Section 4, B; the addition of Part III, Article III, Section 4, G; and the deletion of Part V, Article IV, Section 3, A and B, of the Statutes of the Board of Trustees.

On motion of Arnold H. Maremont, seconded by Lindell W. Sturgis, the Board voted unanimously to table modification of the Statutes and to authorize the administration to proceed with the appointment of a Uni-

versity Communications Council on *ad hoc* basis; further, that the statutory establishment of such Council be considered at the time other revisions to the Statutes are presented.

Matters Presented by President Morris

THE FOLLOWING UNIVERSITY MATTERS were presented by the administration for consideration by the Board:

APPLICATION FOR UHF TELEVISION CHANNELS

Approval is requested for making application to the Federal Communications Commission for assignment of two television channels for educational purposes for utilization by the University. It is assumed only UHF channels will be available.

These two applications will be based on the assumption that it will be possible to secure for educational purposes UHF channels which are already assigned for commercial use. It is believed that it may be possible to secure FCC permission to locate a UHF channel at a point south of Carlinville, Illinois, and another at a point near Newton, Illinois. It must be recognized that the final determination of the specific channels to be applied for, as well as the locations of those channels, can only be determined by professional engineering studies and reports. The attached map indicates the best estimates of WSIU-TV's chief engineer.

WSIU-TV does not provide a signal for the entire Southern Illinois area. Furthermore, it must be recognized that this WSIU-TV coverage pattern is based on Federal Communications Commission engineering table estimates. Some of the areas within WSIU-TV outer circle coverage on the map are not receiving adequate signals. Operation of the two UHF facilities would supplement service within the WSIU-TV outer coverage areas to the northwest, north, and northeast, and would also provide primary and dominant educational television service to the northwestern, northern, and northeastern parts of the Southern Illinois area and beyond. The areas which are served by the University's Edwardsville complex cannot effectively receive the WSIU-TV signal, and this problem would be solved by installation of a facility on an appropriate UHF channel.

Arrangements have already been made with the Office of the State Superintendent of Public Instruction to coordinate the two proposed UHF facilities and WSIU-TV with the State of Illinois Educational Television Network, which is now in the developmental stages. Application to the Federal Communications Commission for the assignment of two UHF channels for educational purposes will have full support of the State Office of Public Instruction.

The UHF channel facility near Carlinville would be operated from the television studios to be available in the Edwardsville Campus Communications Building. The UHF channel facility near Newton would be operated as a satellite of WSIU-TV. Separate programming could and probably would be done at least part of the time for the transmitter near Carlinville; the programming on the transmitter near Newton would always be the same as that on WSIU-TV. In effect, this operational procedure would provide Southern Illinois with a Southern Illinois University educational television network.

Based on the information available, no estimate of the length of time required to secure these two assignments can be made at present. However, delay in filing the applications would no doubt result in delaying the assignments and increasing the costs.

A map showing coverage patterns of existing and proposed television transmission operations, including a proposed UHF station near Newton, Illinois, and a proposed UHF station to be controlled from the Edwardsville Campus, was presented. A copy of the map was placed on file with the Secretary of the Board.

On motion of Arnold H. Maremont, seconded by Harold R. Fischer, the Board approved the administration's request to apply to the Federal Communications Commission for assignment of two television channels for educational purposes.

PROPOSED SCHEDULE OF MEETINGS FOR 1963

At the Board meeting held December 10, 1960, the Board approved a schedule of meetings through December, 1961. A few of the scheduled dates were changed, but the administration found the tentative list of meetings helpful. It is hoped that it was also found helpful by the members of the Board.

For the current year the following list of dates for Board meetings is suggested. If approved, a calendar for 1963 will be prepared to show the scheduled meetings.

Friday, April 26
Tuesday, May 28
Friday June 28
Monday July 15 (tentative)
Friday, August 9
Thursday, October 3
Wednesday, November 6
Saturday, December 7

The Board adopted by common consent the schedule of meetings for the remainder of 1963, as shown above.

INFORMATION REPORT ON ACTIONS OF EXECUTIVE COMMITTEE: PURCHASE ORDERS, CONTRACTS, AND ENCUMBRANCE AUTHORIZATIONS APPROVED FOR JANUARY, 1963

At the Board meeting held February 1, 1963, the Board of Trustees granted to the Executive Committee full authority for approval of purchase orders, contracts, and encumbrance authorizations with the provision that actions of the Executive Committee be submitted to the entire Board for ratification.

It is requested that the Board consider and ratify the actions of the Executive Committee in approving purchase orders, contracts, and encumbrance authorizations awarded during January, 1963, for the Carbondale and Edwardsville campuses.

REPORTS ON CURRENT AND PENDING MATTERS

President Morris referred to action taken by the Board at the meeting held September 14, 1962, stipulating that construction on the Edwardsville Campus should not begin until zoning was accomplished which was satisfactory to the Board. He indicated that the Madison County zoning ordinance was now in effect and was apparently quite satisfactory..

Assistant Legal Counsel L. James Struif, at the request of President Morris, outlined for the Board the general provisions of the Madison County zoning ordinance and indicated on a map of the campus the specific areas zoned for residential, business, manufacturing, and agricultural use. General discussion followed, and questions from various members of the Board were answered by members of the administration.

President Morris read a letter received from the State, County, and Municipal Employees Union, requesting notification of thirty days in advance of making any arrangement similar to the employment of the Slater-Minnesota Corporation for catering service at the University Center. It was the consensus of the members of the Board that the Union's request should be denied.

President Morris presented to each member of the Board copies of "Capital Improvements Plan," Carbondale and Edwardsville Campus, 1963–1965. He requested that this document be approved for planning purposes, except for pages 10 and 14, which he indicated were only schematic. He stated that approval would enable the administration to use the document as a guide for planning during the 1963–1965 biennium.

On motion of Harold R. Fischer, seconded by Dr. Martin Van Brown, the Board approved the document presented. The vote was as follows: Yea, Dr. Brown, Mr. Fischer, Mr. Maremont, Mr. Page, Mr. Sturgis, Mr. Wham; nay, none.

Copies of the audit report for the fiscal year ended June 30, 1962, were distributed as prepared by the auditing firm of Peat, Marwick, Mitchell & Company. A copy of the report was placed on file with the Secretary of the Board.

Copies of a study entitled "Depression of Illinois Central Railroad Tracks Across University Land," prepared by the University Architect's Office, were presented. A copy of the study was placed on file with the Secretary of the Board. At the request of President Morris, Director of Business Affairs John S. Rendleman briefly outlined the historical background which led to preparation of the study. He also indicated cost estimates as revealed by consideration of three approaches and three alternates. The Board agreed that further study of the problem was indicated.

The meeting was adjourned at 4 P.M.

A detailed report of such actions was mailed to the members of the Board of Trustees in advance of this meeting, and a copy of the detailed report was placed on file in the office of the Board.

Actions of the Executive Committee in approving purchase orders, contracts, and encumbrance authorizations amounting to over $1,000.00, in the total amount of $116,695.04 for Carbondale Campus and $42,138.74 for Edwardsville Campus, were also considered.

On motion of Kenneth L. Davis, seconded by Ray Page, the Board ratified action taken by the Executive Committee in approving purchase orders, contract, and encumbrance authorizations awarded during February, 1963. The vote was as follows: Yea, Dr. Brown, Mr. Davis, Mr. Fischer, Mr. Page, Mr. Wham, Mr. Lockard; nay, none.

CHANGES IN FACULTY-ADMINISTRATIVE PAYROLL

The following additions and changes were reported and approval requested:

Death

The death of Mr. Eli Gilbert Lentz, University Professor, was reported. Mr. Lentz was born May 27, 1881, in Creal Springs, Illinois, and died March 24, 1963. He received the Bachelor of Arts degree from Indiana University and the Master of Arts degree from the University of Illinois. He had served as a teacher in rural schools in Illinois and as a principal and superintendent in Creal Springs, Carterville, and Marion, Illinois, prior to joining Southern's staff in 1914. He served as Instructor, Assistant Professor, Associate Professor, and Professor of History, and was the first faculty member named as University Professor. He was for many years Dean of Men, and served as chairman of the Diamond Jubilee committee. Dean Lentz's most important contribution to the University was not in his specific assignments, but in his pervasive influence for good on hundreds of our students and alumni, on his numerous faculty colleagues who held him in affection and esteem, and on the citizens of Southern Illinois who regarded him as a symbol of what was best in the University.

"The Board of Trustees of Southern Illinois University regrets to record upon the minutes of this meeting the passing of Mr. Eli Gilbert Lentz, University Professor.

"Professor Lentz devoted fifty years of his lifetime to the teaching profession, thereby touching and enriching the lives of countless students by his high standards of scholarship and by his wisdom and integrity. Students, colleagues, alumni, and the citizens of Southern Illinois hold in their hearts the memory of a true gentleman, a scholar, and a friend who served unhesitatingly in many capacities for the betterment of the University and the area. The many honors bestowed upon him during his long life were more than justly deserved.

"We hereby express our appreciation for Professor Lentz's many years of service and our very deep sense of loss. Our most sincere sympathy is extended to Mrs. Lentz and to the family.

"This brief tribute, adopted at a regular meeting held at Southern Illinois University in Carbondale, Illinois, April 26, 1963, shall become a permanent part of the records of this Board, and copies shall be forwarded to the College of Liberal Arts and Sciences, to the University administration, and to the Secretary of the University Faculty."

INTERIM ACTIONS ON UNIVERSITY ORGANIZATION

As a result of the establishment of a second major campus of Southern Illinois University at Edwardsville, the By-Laws and Statutes of the Board of Trustees have been outmoded. At the January 22, 1960, meeting of the Board of Trustees, following approval of certain amendments to the Statutes, the problem of how to proceed with bringing the Statutes into line with the needs of a large, growing, complex, multi-campus university was discussed. It was agreed that the University's organization should be subjected to continuing study by the Faculty Procedures Committee and by consultants from both inside and outside the organization, but that meanwhile the President should be authorized to delegate powers and duties to various administrative officers and to set up a tentative structure of Councils, to be redefined as experience indicated and to be criticized and discussed by the staff before being written up in the form of statutory amendments. On February 8, 1960, a statement concerning redelegation of administrative responsibilities was issued to the staff.

At one time it was thought that a review of the Statutes could be completed in comparatively few months and that a complete program of amendments could be

then proposed to the Board of Trustees. Meanwhile, however, it has become apparent that the establishment of the Edwardsville Campus virtually invalidated all earlier studies of the University's administrative organization and council structure. We have therefore been compelled to devise, one by one, tentative solutions to our various problems.

With respect to the council structure, there was an obvious need for an all-University agency to receive and review proposals from the several campuses. During the summer of 1961, therefore, the University Council was reconstituted to provide such a review body, with representation from both Carbondale and Edwardsville and from both faculty and administration. Then, study disclosed that two of the statutory councils (The Educational Service Council and the Instructional Aids Council) had completely outlived their original usefulness, and so they were deactivated. Such bodies as the Budgetary Council and the Council on Campus Development have not been able to operate in the new situation as they did in the old. Although the Statutes do not provide for a Faculty Council at Edwardsville, it has been thought best for that campus to have meetings of an unofficial counterpart of the Faculty Council at Carbondale until the total problem has been solved.

The Statutes also provided for a Journalism Council, which has been outmoded by (a) the development of a second major campus and (b) increasing student participation not only in newspapers and yearbooks but also in other communications media, such as radio and television. On November 1, 1962, faculty members were invited to react to a proposed University Communications Council, as were student government organizations. There was a large and varied response, which was summarized and studied by the University Council. Furthermore, as the University Council considered the matter, it became increasingly apparent that not only student-oriented communications media but also media for internal and external communications of faculty and administrative matters of concern needed continuing study and improvement. The result was an enlarged conception of a Communications Council made up of faculty members not having a direct relationship to any of the communications media of the University but continually reviewing all of them and periodically reporting their conclusions to the University Council.

Finally, the University Council approved a revision of the November 1, 1962, proposal, which was then placed before the Board of Trustees. In accordance with the general authorization of January 22, 1960, as stated above, the Board suggested that the administration proceed on an *ad hoc* basis to establish such a body, with the thought that the Council (perhaps modified in the light of experience) should be permanently established at the time a total council structure is recommended to the Board.

The interim Communications Council has now been named. Meanwhile, there is the question of what to do about other aspects of the temporary organization. Both the Faculty Procedures Committee and the University Council have been giving much thought to the structure of the University, but the problem is so complex for a multiple-program and multiple-campus University that there is still disagreement on many details. It is hoped that early next year specific amendments to the Statutes can be proposed to the Board of Trustees.

Meanwhile, it is recommended that the Board reaffirm its position that the President should establish an interim University organization, redelegating ad-

ministrative and Council responsibilities as necessary. This approach will permit experimentation and adjustments within the structure during the interim, and will make it possible to propose amendments to the Council on an all-University basis, not a piecemeal basis. It should prevent the need for many minor amendments to the Statutes at a later time. The present recommendation is made to obtain formal endorsement by the Board of temporary, extra-statutory provisions now being made to carry on the work of the University until the Statutes are formally amended.

On motion of Dr. Martin Van Brown, seconded by Melvin C. Lockard, the Board by unanimous vote reaffirmed its position that the President be authorized to establish an interim University organization, redelegating administrative and Council responsibilities as indicated in the item presented above.

DAMAGES FOR LATE COMPLETION OF SMALL GROUP HOUSING UNITS

Of the six Small Group Housing Units constructed during this past year, five were not completed and ready for occupancy by the beginning of the fall quarter because of failure of the contractors to meet the required completion date. Accordingly, the following resolution is recommended for adoption by the Board:

Resolution

BE IT *Resolved* By the Board of Trustees of Southern Illinois University, in regular session assembled, that the Legal Counsel be authorized to take all action necessary, including institution of an appropriate action in a court of law, against any or all contractors, subcontractors, or materialmen involved in the construction of Small Group Housing, Phase II, Buildings #108, #109, #111, #112, and #116, for the recovery of actual damages sustained by the University because of a breach of contract consisting of failure to complete the construction of these units within the time allowed by contract.

On motion of Harold R. Fischer, seconded by Dr. Martin Van Brown, the Board adopted the resolution presented. The vote was as follows: Yea, Dr. Brown, Mr. Davis, Mr. Fischer, Mr. Page, Mr. Wham, Mr. Lockard: nay, none.

FURNISHING UTILITIES TO PROPOSED GREENHOUSE INSTALLATION, SMALL FRUITS RESEARCH STATION, U. S. DEPARTMENT OF AGRICULTURE

The Board has heretofore agreed to provide a tract of land in its agricultural area for the erection of small fruits research greenhouses by the Federal Government. This program works closely with our School of Agriculture and it has been considered in the best interest of the University to cooperate in the establishment of this facility. The U. S. Department of Agriculture has asked if it would be convenient for us to furnish certain utilities to this facility, and toward this end the following resolution is recommended for adoption:

Resolution

WHEREAS, The proposed Federal Small Fruits Research Greenhouses are to be located on the Carbondale Campus of Southern Illinois University, and

WHEREAS, The Small Fruits Research Station and the School of Agriculture work closely together and use each other's facilities from time to time, and

WHEREAS, The location of these research greenhouses on the University campus is of distinct value to the University's program of education in the field of Agriculture, and

WHEREAS, Certain utilities for the servicing of these greenhouses can be more economically procured by the University because of its bulk purchasing power; now, therefore, be it

Resolved By the Board of Trustees of Southern Illinois University, in regular session assembled, that the University is authorized to provide reasonable electrical power, heat, and a source of water for the servicing of the proposed Small Fruits Research Greenhouses of the U. S. Department of Agriculture to be located on the Carbondale Campus, and that these services be provided to the said research facility at no or nominal cost to the United States Government.

On motion of Melvin C. Lockard, seconded by Harold R. Fischer, the Board adopted the resolution presented. The vote was as follows: Yea. Dr. Brown, Mr. Davis, Mr. Fischer, Mr. Page, Mr. Wham, Mr. Lockard; nay, none.

VENDING MACHINE RECEIPTS

On October 27, 1960, the Board authorized the establishment of a new account entitled "Student Welfare Development Fund" and directed the deposit of all revenues from vending machines on campus to this account. The administration is advised that the terms of the Board's pledge of receipts from the operation of self-liquidating buildings could quite properly be construed to include an obligation to devote the receipts of vending machines located in self-liquidating projects to the retirement of their respective revenue bond issues. The following action of the Board is therefore recommended:

Resolution

BE IT *Resolved* By the Board of Trustees of Southern Illinois University, in regular session assembled, that all net profits from vending machines on the campus except such net profits which may have been formally pledged to the support of any self-liquidating project, and all funds collected from traffic and parking violations, shall be devoted to projects aimed at the improvement of student welfare for which the use of state appropriations might be unwise, inappropriate or inadequate, and pursuant thereto all such receipts shall be deposited in the Student Welfare Development Fund.

On motion of Melvin C. Lockard, seconded by Dr. Martin Van Brown, the Board adopted the resolution presented. The vote was as follows: Yea, Dr. Brown, Mr. Davis, Mr. Fischer, Mr. Page, Mr. Wham, Mr. Lockard; nay, none.

Resolved By the Board of Trustees of Southern Illinois University, a body politic and corporate of the State of Illinois, in regular session assembled, that it is hereby determined that it is necessary and desirable that the Board of Trustees shall acquire title to and possession of the following described real property, which real property is required and needed for the expansion of the Carbondale Campus of Southern Illinois University and for the educational purposes of that campus, to-wit:

(Legal descriptions of the foregoing tracts appear in the official minute record of the Secretary of the Board, but are here omitted in the interest of economy); and be it further

Resolved That the University administration be and they hereby are authorized, empowered, and directed to negotiate for and on behalf of the said Board of Trustees with the owner or owners of the hereinabove described real property for the purchase thereof by the said Board of Trustees, and that if reasonable offers of purchase based on able appraiser opinion are refused by the owner or owners of such tracts that the University administration is hereby further authorized, empowered, and directed to institute proceedings in any court of competent jurisdiction to acquire title to and possession of said property for the said Board of Trustees in accordance with the eminent domain laws of the State of Illinois.

On motion of Melvin C. Lockard, seconded by Dr. Martin Van Brown, the Board adopted the resolution presented. The vote was as follows: Yea, Dr. Brown, Mr. Davis, Mr. Fischer, Mr. Page, Mr. Wham, Mr. Lockard; nay, none.

RESOLUTION ENDORSING A STATE OF ILLINOIS EDUCATIONAL TELEVISION NETWORK

The following resolution is recommended for adoption by the Board of Trustees:

Resolution

BE IT *Resolved* By the Board of Trustees of Southern Illinois University, in regular session assembled, that the proposal for a statewide educational television network

be and is hereby approved and endorsed by the said Board of Trustees of Southern Illinois University, and the administration is advised and directed to encourage the establishment and advise and assist in the planning of such a network, and to so plan the development of the educational television service at Southern Illinois University that it is possible for it to become a link in any future network which may be established.

On motion of Ray Page, seconded by Dr. Martin Van Brown, the Board adopted the resolution presented by unanimous vote.

MEETING WITH REPRESENTATIVES OF THE CITY OF CARBONDALE

At 11:30 A.M., as scheduled, four representatives of the City of Carbondale entered the meeting and were introduced to the members of the Board of Trustees. These representatives were Mayor Blaney Miller, City Attorney Edward J. Helton, Building and Zoning Commissioner Thomas Easterly, and City Planning Consultant Gerwin K. Rohrbach.

After discussion, the two bodies adopted the following statement:

"The City Council and the Board of Trustees express mutual appreciation for the opportunity to explore matters of common concern in the developments of the City and the University. It is agreed there should be continuing discussion between representatives of the Council and the University Administration to examine and clarify the areas of responsibility of each, and to develop improved means of communication and cooperation."

RESOLUTION CONCERNING STUDENT HOUSING ON AND OFF CAMPUS

The Board of Trustees of Southern Illinois University on October 26, 1962, passed by unanimous vote a resolution which reaffirmed that the Student Affairs

Office through the Coordinator of Housing and Supervisor of Off-Campus Housing "maintain a service file of acceptable living quarters for University students and a system for their inspection and rating." In addition, the Board's action requested within a six-month period a report on the standards established.

The principles incorporated in the following resolution are intended to emphasize the continuing concern of the Board of Trustees for the environment in which students live and to set forth the successive steps of upgrading living facilities both on and off campus.

The importance of the University's cooperating with private householders in order to allow the individual householder to meet and fulfill the minimum physical and supervisory standards which are to be required is apparent if at least 9,000 students are to be housed in Carbondale and neighboring communities and an undetermined number of students are to be housed in Edwardsville and neighboring communities. Moreover, the minimum standards can be anticipated to be raised at periodic intervals and private householders investing in new construction must anticipate the upgrading of standards in safety, sanitation, health and recreation, environment for good study conditions, and supervision.

The report on housing policies and standards is submitted for the information and review of the Board of Trustees. These policies and standards have evolved through active discussion with representatives of the Householders' Association, Jackson County Health Department, State Fire Marshal's Office, Association of College and University Housing Officers, Carbondale Building and Zoning Administrator, students, and appropriate staff members of the University.

Resolution

BE IT *Resolved* That the Board of Trustees remands to the Administration the implementation of all necessary policies and procedures which will result in the establishment of acceptable living centers for all single undergraduate students.

BE IT *Resolved* That effective on September 1, 1963, single undergraduate students will be permitted to reside only in those accommodations which have been and which continue to be classified by the Administration as "Accepted Physical Facilities." Criteria for "Accepted Living Centers" will be recommended to the Board of Trustees not later than April 1, 1964, to stipulate minimum standards for the Fall Quarter of 1965. Any single undergraduate student who resides in accommodations not designated as "Accepted Physical Facility" or "Accepted Living Center" shall be subject to disciplinary action.

BE IT *Resolved* That the Administration shall vigorously encourage that all accommodations used by graduate students and married undergraduate students shall meet the same minimal standards.

BE IT *Resolved* That the qualifications necessary for a living unit to be classified as an "Accepted Physical Facility shall encompass due consideration for safety, sanitation, health and recreation, supervision and the creation of an environment which is conducive to good study conditions.

BE IT *Resolved* That the Administration shall review annually the Housing Policies and Standards and make recommendations to the Board of Trustees for upgrading living conditions for students of Southern Illinois University.

On motion of Kenneth L. Davis, seconded by Dr. Martin Van Brown, the Board adopted the resolution presented by the administration. The vote was as follows: Yea, Dr. Brown, Mr. Davis, Mr. Fischer, Mr. Page, Mr. Wham, Mr. Lockard; nay, none.

REPORTS ON CURRENT AND PENDING MATTERS

President Morris presented to the members of the Board a report on University faculty resignations over a five-year period, prepared at the request of members of the Board. A copy of the report was placed on file in the office of the Board.

As shown in the minutes of the meeting held March 6, 1963, a review was made of the audit report prepared by Peat, Marwick, Mitchell & Company, Chicago, for the fiscal year ended June 30, 1962. Copies of a letter of comments concerning the recommendations made by the auditing firm were presented to the members of the Board, and a copy was placed on file with the Secretary of the Board. No action was required.

President Morris reviewed for the members of the Board the building plans contemplated by two private investors for the construction of dormitories in the area north of Grand Avenue and east of the Illinois Central Railroad right-of-way. He requested authorization for the administration to negotiate with Mr. Van Parriott and Mr. Robert Reeves for an exchange of land on a lease basis. On motion of Melvin C. Lockard, seconded by Kenneth L. Davis, the Board authorized the administration to negotiate with Mr. Parriott and Mr. Reeves, according to the plan outlined. The motion was carried by unanimous vote.

Discussion was held concerning a proposed amendment to the Statutes, concerning a change in the provisions for continuing tenure in the rank of instructor. The Board, by common consent, agreed to consider the proposed amendment at the next regular meeting.

The meeting was adjourned at 3:15 P.M.

MAY, 1963

THE MAY MEETING of the Board of Trustees of Southern Illinois University was held in the office of the Board on Tuesday, May 28, 1963, beginning at 11 A.M.

The following members of the Board were present: Dr. Martin Van Brown, Kenneth L. Davis, Harold R. Fischer, Melvin C. Lockard, Lindell W. Sturgis, John Page Wham. Mr. Page and Mr. Maremont were absent.

Also present were President Delyte W. Morris, Vice-President Charles D. Tenney, Vice-President J. E. Grinnell, Vice-President Clarence W. Stephens, General Counsel John S. Rendleman, Legal Counsel C. Richard Gruny, University Architect Charles Pulley, Business Manager and Treasurer Robert L. Gallegly, Director of Information Service William H. Lyons; Ben Gelman, Reporter for *The Southern Illinoisan*, and Mrs. Louise Morehouse, Recorder for the Board of Trustees.

The Chairman presented minutes of a regular meeting held April 26, 1963, copies of which had been forwarded to all members of the Board in advance of this meeting. On motion of Lindell W. Sturgis, seconded by Dr. Martin Van Brown, these minutes were approved as presented.

In compliance with Part II, Article V, Section 5 of the By-Laws of the Board of Trustees, notice was mailed to the members of the Board on May 10, 1963, of the intention to request amendment to Part IV, Article II, Section Section 2, B, 1 and 3, and Section 2, C, 2 to read as follows.

Part IV, Article II, Section 2

B. Temporary Tenure.

Three classes of employment carrying temporary tenure shall be recognized.

1. Employment designated in the contract as of temporary nature: a term appointment.

3. Probationary employment, which is employment that is required of a staff member as a condition of attaining continuing tenure: a continuing appointment with no stated expiration date.

C. Continuing Tenure.

2. All regular full-time members of the teaching and research staff with the ranks of professor, associate professor, assistant professor, and instructor shall be eligible to attain continuing tenure. Whereas appointments in the three professorial ranks will normally lead to continuing tenure unless made for a stated term or unless due notice to the contrary is given, in the case of instructors all appointments will be temporary term appointments unless otherwise specifically stated in the notice of appointment; provided, however, that the foregoing shall not apply to instructors appointed prior to May 29, 1963. Profesionally trained persons in the above academic ranks who serve in capacities that may be broadly interpreted as involving teaching and/or research functions in the library, in extension service, and in student personnel work, shall be eligible for continuing tenure. The Board may, in addition, give continuing tenure to specific persons of the University organization not included in the above-named groups.

President Morris indicated that the University Council, at a meeting held May 27, 1963, pointed out ambiguities in the proposed amendments. He requested that the Board adopt the amendments as submitted, with the understanding that three minor changes in wording would be made and the amendments reconsidered at the June meeting of the Board.

On motion of Lindell W. Sturgis, seconded by Harold R. Fischer, the Board adopted the amendments as presented, in accordance with the administration's recommendation for a change in wording to be considered at the June meeting. The vote was as follows: Yea, Dr. Brown, Mr. Davis, Mr. Fischer, Mr. Sturgis, Mr. Wham, Mr. Lockard; nay, none.

At the request of President Morris, General Counsel John S. Rendleman explained to the members of the Board that the sale of revenue bonds for the construction of University Park had been cancelled because only one bid was received for general construction work and it was greatly in excess of the estimates. The administration recommended that new bids be sought on general construction work, and that bonds be advertised on July 15, 1963, for sale on July 30, 1963.

On motion of Melvin C. Lockard, seconded by Lindell W. Sturgis, the Board approved the recommendation made by the administration. The vote was as follows: Yea, Dr. Brown, Mr. Davis, Mr. Fischer, Mr. Sturgis, Mr. Wham, Mr. Lockard; nay, none.

The following statement concerning land acquisition expansion was presented:

"The Board of Trustees is not unmindful of the community of Carbondale's interest in the growth of Southern Illinois University. It believes that in great part this interest is motivated by a desire for continuing improvement in the program of the institution and that only a few persons may be influenced by personal pecuniary motives. It has reason to think that the great majority of Carbondale citizens have a selfless pride in the development of the University, recognize the contributions of

the students and staff to Carbondale, and accept the gratitude of the University for Carbondale's contributions to it.

"It is not the intention of the Board to proceed in its planning under a cloak of secrecy. But there must be an orderly process of decision making which by its nature precludes divulgence of confidential information before an appropriate time. To indicate prematurely matters which are under study and which could encourage speculation to the detriment of both the University and the taxpayers of Illinois would, we believe, be unwise. In this respect the responsibility of the Board must, perforce, rest on the common good of all the citizens of Illinois and transcend community considerations.

"To those who have expressed interest in the reasons for the changes in the University's master plan, we should like to note that present studies of higher education all indicate that tremendous increases of college population will occur in the next decade.

"Within the past two years the estimates for eventual enrollment on the Carbondale Campus have increased by 3,000. These increases will require not only facilities for numerous additional undergraduate students but also living and learning room for recently established and developing graduate, professional, and research programs. It was the opinion of the Board and is still its opinion that the University will be called upon to play a major, statewide role in these latter programs.

"Based on this judgment, it was concluded that sufficient core land area was not available under then current plans properly to meet and discharge the responsibilities of an enlarged graduate, professional, and research program. And yet, to predict now the exact nature of additional programs which Southern Illinois University may be called upon to develop would be presumptuous.

"The Board had hoped that all members of the community had sufficient pride in the past accomplishments of the University and confidence in the manner of performing these accomplishments to preclude widespread controversy. But since we now feel that such a statement as this has become necessary, we can only hope that by issuing it we have not in any way reduced the good will of the great majority of Carbondale's citizens or diminished the opportunity for Southern Illinois University to play a major role in the future of higher education in Illinois."

On motion of Lindell W. Sturgis, seconded by Melvin C. Lockard, the Board approved the statement submitted. The vote was as follows: Yea, Dr. Brown, Mr. Davis, Mr. Fischer, Mr. Sturgis, Mr. Wham, Mr. Lockard; nay, none.

President Morris presented for consideration by the Board a Revised Master Plan of Carbondale Central Campus, dated May 28, 1963. He also presented the Master Plan approved by the Board on December 10, 1960, and explained that the major changes involved development of detailed planning east of the Illinois Central Railroad, doubling the parking area for the proposed new Communications Building, and a change in a connecting link in the Loop Road. He recommended extension of purchase area north to the north side of proposed Hester Street on the east side of the Illinois Central Railroad. President Morris stated that, in the opinion

of the administration, the proposed expansion would be the last intrusion into the incorporated area of the city for perhaps ten years. He added that the projected estimates of enrollment by 1970 had been raised to 18,000 full-time students on the Carbondale Campus.

On motion of Melvin C. Lockard, seconded by Dr. Martin Van Brown, the Board approved the Revised Master Plan for the Carbondale Central Campus, as presented. The vote was as follows: Yea, Dr. Brown, Mr. Davis, Mr. Fischer, Mr. Sturgis, Mr. Wham, Mr. Lockard; nay, none.

Matters Presented by President Morris

THE FOLLOWING UNIVERSITY MATTERS were presented by the administration for consideration by the Board:

DISPOSITION OF STRIP MINE RESEARCH LAND

In 1954 the Truax-Traer Coal Company granted the University just under one thousand acres of land in Perry County, Illinois, for research on possible uses and reclamation of strip mine spoil banks. At the meeting of May 27, 1954, the Board by Resolution stated its intent that when this land was no longer of benefit to the contemplated research program, that said land would be deeded to the appropriate body of the county or state or United States government in consultation with Perry County, for the uses and purposes consistent and germane to the completed research program. This research has not yet been completed but is at an advanced stage.

The intent of the above resolution appears to be the placing of this land in the hands of a body which would reclaim and make useful this spoil bank area after our research project had indicated the methods which might best be used to do this. We may now have reached the point where this will become possible. The Illinois Board of Economic Development, the Area Redevelopment Administration, and the Department of Conservation have been consulting with the University and the Southern Illinois University Foundation on transforming this area plus additional land to a total of about 3,000 acres into a tourist, camping, and recreation area including lakes, campsites, cabins, and hiking and horseback trails. Toward this end, Truax-Traer Coal Company will contribute additional land; the Department of Conservation may purchase additional land; and the Area Redevelopment Administration may make available in the neighborhood of One Million Dollars for development. Some portion of these funds would be in the form of a loan rather than a grant. Neither the Department of Conservation nor the University can undertake to repay a loan extending over more than one biennium. The Foundation has therefore been asked to make the application for these funds and to operate the area in conjunction with the Department of Conservation until the loan is paid off, at which time the land will be given to the Department of Conservation. The overall program also includes additional research grants to be performed by the University during the development period.

It therefore appears to be consonant with the Board's resolution to May 27, 1954, that the Pyatt Research Station land in Perry County be turned over to the Founda-

tion when plans for the project are complete, so that it may make application for the area redevelopment funds, develop the area, and turn the completed project over to the Department of Conservation. The following resolution is therefore recommended for adoption:

specifically excepting therefrom the rights reserved by the University's grantor to all minerals and the right to construct, maintain, and use power lines, electric substations, and associated equipment and roads, and the Chairman and Secretary are further authorized and directed to sign and execute in the name of the Board all deeds and other documents and to do all other things necessary to accomplish the conveyance of the aforesaid land to the Southern Illinois University Foundation, PROVIDED, HOWEVER, that such conveyance shall not be made and the deed shall not be delivered to the Southern Illinois University Foundation unless and until the said Foundation has formally agreed to undertake this project and make application to the Area Redevelopment Administration for funds with which to develop the area for recreational use, the Illinois Department of Conservation has signified its agreement and intention to cooperate with the Southern Illinois University Foundation in the aforesaid project, and the Area Redevelopment Administration of the U. S. Department of Commerce has indicated its approval of the Southern Illinois University Foundation's application for development funds.

On motion of Melvin C. Lockard, seconded by Harold R. Fischer, the Board adopted the resolution presented. The vote was as follows: Yea,

Dr. Brown, Mr. Davis, Mr. Fischer, Mr. Sturgis, Mr. Wham, Mr. Lockard; nay, none.

AUTHORITY TO APPLY FOR PERMIT TO CONSTRUCT DAM

Jurisdiction of rivers and lakes, both navigable and non-navigable, has been vested in the Department of Public Works and Buildings of the State of Illinois by statute. Prior to beginning construction on Utilities Reservoir No. 1 on the Edwardsville Campus, application should be made to the Department through its Division of Waterways for the obstruction of this stream and the resulting creation of the lake. The Department requires that the authority of the person who signs the application be evidenced by a resolution of the governing body attached thereto. The following resolution is therefore recommended for adoption:

Resolution

BE IT *Resolved* By the Board of Trustees of Southern Illinois University, in regular session assembled, that the President of Southern Illinois University is hereby authorized to make application to the Division of Waterways, Illinois Department of Public Works and Buildings, for approval of the erection of a dam to create Utilities Reservoir No. 1 on the Edwardsville Campus of the Board, said dam to be located on the Northeast Quarter of the Northeast Quarter of Section 17 and the Northwest Quarter of the Northwest Quarter of Section 16, Township 4 North, Range 8 West of the Third P.M. in Madison County, Illinois.

FINAL ACTION ON THOMPSON POINT DORMITORY AND DINING HALL CONSTRUCTION

All the new Thompson Point facilities were scheduled for completion of construction on June 1, 1962. For various reasons, mostly involving changes requested by the University, time extensions have been granted on all contracts extending official completion date into the latter part of July or the month of August. Some of these buildings were completed before the official required completion date, but most were not completed until thereafter. However, all buildings but one were completed by the end of August and that one was completed by September 10, 1962. All buildings were furnished and completed in time for normal occupancy as students arrived for the fall quarter. Therefore, although sufficient reason has not been found for extending the required completion date to coincide with or extend beyond the actual completion date, it is considered that no damage accrued on account of such late completion. The Board is therefore asked to take the following action for the purpose of completing our construction record with the Housing and Home Finance Agency on this portion of the project:

Resolution

be it *Resolved* By the Board of Trustees of Southern Illinois University, in regular session assembled, that because University Contracts 4830 through 4834, 4836 through 4838, and 4843, for the construction of Residence Halls 35 through 39 and the Additions and Alterations to the Dining Hall and Student Services Building at Thompson Point were completed and the buildings made available for occupancy and use by students before the beginning of the fall quarter of the University, and no harm, damage or disaccommodation was suffered by the University, its faculty, staff, or students, because of the actual completion date and the actual date of acceptance by the University is hereby forgiven and waived.

On motion of Dr. Martin Van Brown, seconded by Harold R. Fischer, the Board adopted the above resolution. The vote was as follows: Yea; Dr. Brown, Mr. Davis, Mr. Fischer, Mr. Sturgis, Mr. Wham, Mr. Lockard, nay, none.

MEMORIAL TO PROFESSOR E. G. LENTZ

In tribute to the memory of the late Professor E. G. Lentz, it is recommended that the Board adopt the following resolution:

Resolution

WHEREAS, The whole Southern Illinois University community mourns the passing of Professor Emeritus Eli Gilbert Lentz, whose long and devoted service to the University in its developmental years was beyond value; and

WHEREAS, It seems fitting and proper that his name be memorialized to succeeding generations of the University community; and

WHEREAS, Professor Lentz was instrumental in the establishment of a University account from which loans could be made to deserving students to enable them to continue their education; now, therefore, be it

Resolved By the Board of Trustees of Southern Illinois University, that the General Student Loan Fund shall henceforth and forever be called the E. G. Lentz Memorial Fund in respectful and affectionate memory of the late Professor Emeritus Eli Gilbert Lentz.

On motion of Melvin C. Lockard, seconded by Lindell W. Sturgis, the Board adopted the above resolution by unanimous vote.

Lockard, the Board rejected all bids and authorized the administration to seek new bids, as recommended. The vote was as follows: Yea, Dr. Brown, Mr. Davis, Mr. Fischer, Mr. Sturgis, Mr. Wham, Mr. Lockard; nay, none.

At the April 26, 1963, meeting of the Board of Trustees a contract was awarded to Usher Bros. 2. All regular full-time members of the teaching and research staff with the ranks of professor, associate professor, assistant professor, and instructor shall be eligible to attain continuing tenure. Whereas appointments in the three professorial ranks will normally lead to continuing tenure unless made for a stated term or unless due notice to the contrary is given, in the case of instructors all appointments will be term appointments unless otherwise specifically stated in a notice of appointment or reappointment; provided, however, that the foregoing shall not apply to instructors

appointed prior to May 29, 1963. Professionally trained persons in the above academic ranks who serve in capacities that may be broadly interpreted as involving teaching and/or research functions in the library, in extension service, and in student personnel work, shall be eligible for continuing tenure. The Board may, in addition give continuing tenure to specific persons of the University organization not included in the above-named groups.

On motion of Lindell W. Sturgis, seconded by Harold R. Fischer, the Board adopted the amendment proposed by the administration.

Matters Presented by President Morris

THE FOLLOWING UNIVERSITY MATTERS were presented by the administration for consideration by the Board:

RESEARCH PROFESSORSHIP IN SOUTHERN ILLINOIS HISTORY

At one time Southern Illinois University was active in the field of Southern Illinois history and contributed substantially to both the scholarly and the popular literature on this subject. Since the death of Professor Normal Caldwell and the retirement of Mr. John Allen, however, work in this field has necessarily been somewhat restricted.

In order to increase our contributions to the local and state historical societies, and to encourage continuing interest in our regional history, we recommend the immediate establishment of a special Chair of Southern Illinois History, to be filled by a highly qualified research professor. Nominations for this position would be accepted from either or both of our campuses, with an all-University screening committee designated to see that an outstanding person is named to the new chair.

President Morris indicated that the intention was to bring into sharp focus the importance of Southern Illinois history and its relationship to the Midwest and to the nation, and to provide assistance for persons or agencies planning and developing historical sites and landmarks.

On motion of Kenneth L. Davis, seconded by Harold R. Fischer, the Board approved the establishment of a special Chair of Southern Illinois History. The vote was as follows: Yea, Dr. Brown, Mr. Davis, Mr. Fischer, Mr. Sturgis, Mr. Wham, Mr. Lockard; nay, none.

CENTENNIAL PERIOD

We recommend that the Board of Trustees officially designate a CENTENNIAL PERIOD for Southern Illinois University from March 9, 1969, through July 2, 1974.

The University was chartered in 1869, but no classes were taught until midsummer of 1874.

During the CENTENNIAL PERIOD it is hoped that there can be brought to the campus distinguished lecturers, artists, and scientists to review the first one hundred years of the University's existence and to suggest guidelines for the next century. The

Centennial Period should also be distinguished by various important publications of the University, as well as by various appropriate special ceremonies. To these ends, committees from the University staff should be appointed at an early date to plan activities for the Centennial Period, and formal approval by the Board of Trustees would establish a firm base for planning.

President Morris indicated that Emeritus Professor T. W. Abbott had been asked to serve as chairman of a Centennial Committee, to start advance planning for the proposed Centennial Period.

On motion of Harold R. Fischer, seconded by Dr. Martin Van Brown, the Board officially designated a Centennial Period for Southern Illinois University, March 9, 1969, through July 2, 1974, as requested. The motion was carried by unanimous vote.

INFORMATION REPORT ON ACTIONS OF EXECUTIVE COMMITTEE: PURCHASE ORDERS, CONTRACTS, AND ENCUMBRANCE AUTHORIZATIONS APPROVED FOR APRIL AND MAY, 1963

It is requested that the Board consider and ratify the actions of the Executive Committee in approving purchase orders, contracts, and encumbrance authorizations awarded during April and May, 1963, for the Carbondale and Edwardsville campuses. A detailed report of such actions was mailed to the members of the Board of Trustees in advance of this meeting, and a copy of the detailed report was placed on file in the office of the Board.

Actions of the Executive Committee in approving purchase orders and contracts amounting to less than $1,000.00, in the total amount of $314,145.59 for Carbondale Campus and $95,356.70 for Edwardsville Campus, were considered. On motion of Kenneth L. Davis, seconded by Lindell W. Sturgis, the Board approved and ratified actions of the Executive Committee, as shown in detailed reports considered. The vote was as follows: Yea, Dr. Brown, Mr. Davis, Mr. Fischer, Mr. Sturgis, Mr. Wham, Mr. Lockard; nay, none.

FORMAL APPROVAL OF AGREEMENT FOR LOAN FROM HOUSING AND HOME FINANCE AGENCY

At a regular meeting of the Board of Trustees, September 19, 1961, the Board authorized application for funds for construction of a Student Center on the Edwardsville Campus. The attached Loan Agreement sets forth essentially the terms and conditions under which these bonds will be issued, although there are a few minor changes and adjustments to be made.

We recommend that the Board of Trustees formally approve this Loan Agreement. It has been reviewed by Chapman and Cutler, bond counsel; Blythe & Company, fiscal agent; and the Assistant Legal Counsel.

A resolution entitled "Resolution Approving and Providing for the Execution of a Loan Agreement, and Numbered Contract No. H(402)-870,

By and Between the Board of Trustees of Southern Illinois University and the United States of America" was introduced, as follows:

BE IT *Resolved* By the Board of Trustees of Southern Illinois University, sitting in regular session, as follows:

SECTION 1. The pending Loan Agreement and numbered Contract No. H(402)-870, and relating to the erection on the Edwardsville Campus of Southern Illinois University, an educational institution of higher learning located in Carbondale, Illinois, of a new College Union Building, to provide lounge-recreation, student organization space, bookstore, guest rooms, food service and appurtenant facilities for the entire student body and faculty, by and between the Board of Trustees of Southern Illinois University and the United States of America, is hereby in all respects approved.

SECTION 2. The Chairman of the Board of Trustees of Southern Illinois University is hereby authorized and directed to execute the said Loan Agreement in three counterparts on behalf of the said Board of Trustees of Southern Illinois University and the Secretary of the Board of Trustees of Southern Illinois University is hereby authorized and directed to impress and attest the official seal of the Board of Trustees of Southern Illinois University, on each such counterpart and to forward two such counterparts to the Housing and Home Finance Agency, together with such other documents relative to the approval and execution of such counterparts and to this Resolution as may be required by the government.

Said resolution and the proposed Loan Agreement described therein were then read in full and discussed and considered.

Kenneth L. Davis then moved the adoption of the Resolution as introduced and read. Lindell W. Sturgis seconded the motion, and, on roll call, the following voted "Aye": Dr. Martin Van Brown, Kenneth L. Davis, Harold R. Fischer, Lindell W. Sturgis, John Page Wham, Melvin C. Lockard, and the following voted "Nay": None.

The Chairman thereupon declared the motion carried and the Resolution adopted as introduced and read. A copy of the Loan Agreement was placed on file with the Secretary of the Board of Trustees.

FEES FOR PROFICIENCY EXAMINATION

On April 21, 1961, upon the recommendation of the Faculty Councils of the respective campuses, the Board of Trustees established a fee of $5.00 for each proficiency examination administered. On June 13, 1962, this policy was amended exempting those students who ranked in the top ten per cent on approved scholastic aptitude tests from paying this fee.

In addition to the proficiency examination program for credit, there has also been established (primarily for the General Studies Program) a set of examinations permitting advance standing without credit. In order to simplify the total procedures and achieve greater uniformity of the fee structure, it now seems desirable to waive the fee for all students for one year. This will give time to study the comparative effect of the program with and without a fee and give the program an opportunity to develop without the limits currently imposed by a fee.

Additional reasons for this request are:

1. It is hoped that the better qualified students can take advantage of the proficiency examination program, particularly as a means of completing General Studies courses. Some students who are not currently in the top ten per cent of their class are proficient in given areas of study and need more encouragement to try the proficiency tests.

2. There needs to be a period of time to develop specific and meaningful guidelines as to who should be exempted from the fee.

3. There is a general desire to encourage more students to try the proficiency tests.

We therefore recommend approval of the following policy:

Inasmuch as the General Studies Program encourages qualified students to dispose of certain of their requirements through the completion of proficiency and advance standing examinations and more time is needed to develop meaningful recommendations for the fee, the present fee structure regarding proficiency examinations is waived for a trial period of one year, effective immediately.

After discussion, Lindell W. Sturgis moved that the Board approve the change in policy concerning fees for proficiency examinations, as recommended by the administration. The motion was seconded by Melvin C. Lockard and was carried with the vote recorded as follows: Yea, Dr. Brown, Mr. Davis, Mr. Fischer, Mr. Sturgis, Mr. Wham, Mr. Lockard; nay, none.

PROGRESS REPORT ON ANNUAL INTERNAL BUDGET, 1963–1964

Because the General Assembly is still in session, the Annual Internal Budget for 1963–1964 will not be presented until the July meeting of the Board of Trustees. In the meantime, it is recommended that the Board adopt the following resolution:

BE IT *Resolved*, Commencing July 1, 1963, pending formal approval of a budget for operations, the administration of Southern Illinois University is authorized to expend funds for the 1963-1964 fiscal year in amounts not to exceed budget allocations made and approved for the operation of the University for the fiscal year 1962–1963;

FURTHER, The administration is authorized to grant salary increases to civil service employees effective July 1, 1963, in an amount not to exceed $180,000.

After discussion, Lindell W. Sturgis moved that the Board adopt the resolution presented by the administration. The motion was seconded by Harold R. Fischer, and the vote was as follows: Yea, Dr. Brown, Mr. Davis, Mr. Fischer, Mr. Sturgis, Mr. Wham, Mr. Lockard; nay, none.

Mr. Arnold H. Maremont and Mr. Pay Page entered the meeting at this time.

NAMING OF UNIVERSITY BUILDINGS

At a meeting of the Board of Trustees held January 30, 1958, a policy for naming University buildings was adopted, as follows:

"In those cases in which the Board deems it wise to name any building, the following general policy is adopted to serve as a guide:

1. Buildings given to the University may be named for donors or memorial funds.

2. Instructional buildings named in terms of function.

3. Residence halls named for distinguished members of the University Faculty, retired or deceased.

4. General-purpose buildings named for (1) distinguished former members of the Board of Trustees and Presidents, and (2) other administrators, retired or deceased.

5. The above provisions shall not preclude the naming of any building or appropriate part thereof for a member of the Board of Trustees, a member of the University Faculty, or any other worthy or distinguished person, retired or deceased."

Subsequently, an all-University committee designated the "University Building Format Committee" was selected and has given consideration to certain buildings now under construction. Its recommendations are as follows:

1. The residence hall area soon to be constructed south of Park Avenue and east of the Illinois Central right-of-way in Carbondale to be designated "University Park Residence Halls."

2. The Physical Education and Military Training Building on the Carbondale Campus to be designated "The S.I.U. Arena." It was the judgment of the committee that at some future time the name of a person or other significant designation could, if desired, replace S.I.U.

3. The University School to be designated "Pulliam Hall" after Roscoe Pulliam, President of the University from 1935 to 1944. President Pulliam not only gave distinguished leadership to the University, but participated in the planning of this building, which was the first major construction on the Carbondale Campus after a twenty-year period.

4. The Education Building to be designated the "Wham Education Building" after George D. Wham, who was Dean of the Faculty for many years. Dean Wham served the University from 1906 to 1938 and gave leadership at a time when the school was emerging from the status of a teachers college.

5. The auditorium of the Education Building to be designated "Davis Auditorium" for General Robert W. Davis, who served as first Chairman of the Board of Trustees of Southern Illinois University. He previously had served on the Teachers College Board when the University was Southern Illinois Normal University and was controlled by the Teachers College Board.

The committee also wished to call attention to the fact that the policy developed in 1958 would not be too meaningful when applied to the Edwardsville Campus. They are giving consideration to a total policy, but for the present wish to recommend the following policy for the naming of major buildings on the Edwardsville Campus:

"Major buildings, when appropriate, shall be named after well-known benefactors of mankind and society, whose contributions are culturally proven."

6. In connection with this suggested policy, it is recommended that the Library on the Edwardsville Campus be named "Lovejoy Memorial Library" after Elijah P. Lovejoy, noted abolitionist who lost his life in the furtherance of and adherence to his

principles. Not only is Elijah P. Lovejoy internationally known, but his name carries special significance for the area and community of the Edwardsville Campus.

The all-University committee is continuing to sample appropriate segments of the University Faculty for opinions as to a total policy to be recommended to the Board.

President Morris indicated that the University Building Format Committee was charged with studying both campuses as to the naming of buildings and any other physical units such as walks and drives. The committee is composed of John S. Rendleman, Chairman, Carbondale Campus; Harold L. Cohen, Design Department, Carbondale Campus; Evelyn T. Buddemeyer, Fine Arts Division, Edwardsville Campus; William T. Going, Dean of Instruction, Edwardsville Campus; William J. McKeefery, Dean of Academic Affairs, Carbondale Campus; and two students, one from each campus, nominated by the respective Student Councils.

On motion of Kenneth L. Davis, seconded by Harold R. Fischer, the Board approved the recommendations for the naming of buildings, as requested. The vote was as follows: Yea, Dr. Brown, Mr. Davis, Mr. Fischer, Mr. Maremont, Mr. Page, Mr. Sturgis, Mr. Wham (abstaining on Item 4), Mr. Lockard; nay, none.

AWARD OF CONTRACTS

Bids were received April 2, 1963, for the high temperature water generator for Edwardsville Campus. As stated in the minutes of the meeting held May 28, 1963, these bids were rejected and new bids sought. Accordingly, one bid was received June 25, 1963, based on revised specifications requiring an efficiency rating of 81.0 per cent.

At the request of President Morris, University Architect Charles Pulley recommended that the contract for the high temperature water generator be awarded as follows:

Base Proposal

High Temperature Water Generator	$179,415.00	Rhodes Equipment Company 1401 S. Brentwood Boulevard St. Louis 44, Missouri
Per Diem for Training	75.00/day	

On motion of Ray Page, seconded by Kenneth L. Davis, the Board awarded the contract as recommended. The vote was as follows: Yea, Dr. Brown, Mr. Davis, Mr. Fischer, Mr. Page, Mr. Sturgis, Mr. Wham, Mr. Lockard; nay, Mr. Maremont.

The award of contract for plumbing work for the Library and General Classrooms buildings, Edwardsville Campus, was next discussed. The first bids, received March 28, 1963, were rejected by the Board of Trustees, as stated in the minutes of the meeting held April 26, 1963, and new bids were sought. Bids for plumbing work received May 23, 1963, were con-

idered by the Board at the meeting held May 28, 1963, and the administra-ion was authorized to seek a meeting with the two low bidders and McKee, Berger and Mansueto, Architects-Engineers, to determine why bids so far xceeded cost estimates. This meeting took place June 6, 1963, and it was letermined that the method employed by the Consulting Engineers did ıot reflect certain area problems, and that there were errors in quantities oncerning soil drainage. University Architect Charles Pulley, at the request f President Morris, presented his recommendation that contracts be warded for plumbing work as follows:

Base Bid No. 4			
Library	$157,700.00		
Alternate No. 2-B			
Finish 3rd Floor, Library	4,100.00		
Alternate No. 9-A			
Substitute DVM Copper Tubing	400.00	$162,200.00	Fowler Plumbing & Heating 217 East 2nd Street Centralia, Illinois
Base Bid No. 5			
General Classrooms	$159,880.00		
Alternate No. 9-A			
Substitute DVM Copper Tubing	– 2,353.00	$157,527.00	Thomas J. Gleming Company 224 Front Street Alton, Illinois

On motion of Lindell W. Sturgis, seconded by Dr. Martin Van Brown, he Board approved the award of contracts for plumbing work for the Library and General Classrooms buildings, Edwardsville Campus, as recom-nended by the administration. The vote was as follows: Yea, Dr. Brown, Mr. Davis, Mr. Fischer, Mr. Maremont, Mr. Page, Mr. Sturgis, Mr. Wham, Mr. Lockard; nay, none.

At the Board meeting held April 26, 1963, a contract was awarded to Usher Bros. Ideal Heating Co., Chicago, for heating and air conditioning vork for the Library and General Classrooms buildings, Edwardsville Campus, even though Usher Bros. claimed a telegraphic error in the trans-nission of the bid on the General Classrooms Building. This contract was liscussed by the Board at the meeting held May 28, 1963, and the administra-ion was authorized to proceed with the contract as awarded. Subsequently, Usher Bros. refused to accept the contract. Recommendations were made

by both General Counsel John S. Rendleman and University Architec Charles Pulley concerning this contract.

On motion of Arnold H. Maremont, seconded by Melvin C. Lockard the Board authorized the administration to proceed as follows: (1) Seek a agreement with Usher Bros. to proceed with the contract for both building and institute suit to determine the bid for the General Classrooms Building (2) determine whether or not Usher Bros. will accept the contract for th Library Building; or (3) seek new bids for heating and air conditionin for the Library and General Classrooms buildings and, when new bid are known, initiate suit for the difference between the low bids on the firs and second sets of bids. The vote was as follows: Yea, Dr. Brown, Mr. Davis Mr. Fischer, Mr. Maremont, Mr. Page, Mr. Sturgis, Mr. Wham, Mr Lockard; nay, none.

In executive session, President Morris presented to the members of th Board lists of salaries proposed for faculty-administrative personnel for th fiscal year 1963–1964. On motion of Melvin C. Lockard, seconded by Dr Martin Van Brown, the Board tentatively approved such salary lists, wit the request that a ten-day period elapse before salary increases are mad known, thus allowing for study of salary increases by the members of th Board. The motion was carried by unanimous vote.

The meeting was adjourned at 4 P.M.

INTRODUCTION

The 1963-64 internal budget is the first Southern Illinois University budget that allocates funds appropriated by the General Assembly and signed by the Governor pursuant to recommendations of the new State of Illinois Board of Higher Education.

ESTIMATED ENROLLMENTS

The estimates of income for 1963-64 are in part based upon estimates of enrollment. The following summary statement shows those estimated enrollments for Southern Illinois University. The figures are cumulative for the four quarters of the fiscal year.

	1962-63		1963-64	
	NO. OF STUDENTS	FULL-TIME EQUIVALENCY	NO. OF STUDENTS	FULL-TIME EQUIVALENCY
Carbondale Graduate and Undergraduate....	37,660	35,101	42,932	39,927
Edwardsville Graduate and Undergraduate...	15,429	11,572	17,434	13,075
Extension Graduate and Undergraduate.....	631	309	1,210	605
University School.....	1,647	2,253	1,680	2,301
Technical and Adult Education Full-Time....	2,429	2,429	2,818	2,818
Technical and Adult Education Part-Time....	8,721	2,907	8,895	2,965
Totals.....	66,517	54,571	74,969	61,691

There are several types of on-campus degree students, not all of them producing cash income. Each non-veteran produces $42.00 per twelve-weeks term. Students on state scholarships and faculty members taking University courses produce no cash income for educational operations.

PERSONAL SERVICES—FACULTY, ADMINISTRATIVE, AND NONACADEMIC

I. The operating appropriations bill for Southern Illinois University for the 1963-65 biennium included funds for salary adjustments as recommended by the Board of Higher Education. The amount recommended barely exceeded fifty per cent of the sum requested by Southern Illinois University for the biennium. Under these circumstances, only moderate salary increases have been recommended for the faculty and administrative staffs for 1963-64. The increases have been made on a merit basis through careful evaluation of individuals.

Since 1961, when at the last moment some $900,000 was unexpectedly striken from Southern Illinois University's personal service appropriations, the University has been steadily losing ground on national salary scales and by comparison with other state-supported institutions in Illinois.

The market for qualified teaching and research personnel has become increasingly competitive as the demand has outstripped the supply by an ever-widening margin. In recent years competition between universities for highly qualified individuals has taken on a new dimension as industry and governmental agencies have joined the universities in the bidding for staff members. At the same time rapidly increasing college and university enrollments have required major expansion in the teaching staffs of collegiate institutions.

It should therefore be recognized that the program of salary increases reflected in this budget will probably not enable Southern Illinois University to maintain its relative position with respect to faculty salaries. The salary deficiencies of the recently completed 1961-63 biennium are not rectified by the current increases, and in general other institutions have been increasing their salary levels faster than Southern, a situation which does not enhance the ability of Southern Illinois University to obtain and hold good faculty members.

II. The modest salary increases shown in this budget for office workers and other civil service employees represent the best efforts of the University to maintain satisfactory salary levels for those employees who have fallen behind civil service workers who receive prevailing rates or whose salaries are determined by negotiation. The new salaries fall within the ranges established by the University Civil Service System.

III. A major portion of the additional personal services funds made available for 1963-64 was to provide for continued large enrollment increases. It has been necessary

to divert some of these monies to remedy personnel deficiencies in various instructional and supporting service areas. Numerous temporary positions will again be required. A major effort to strengthen and upgrade doctoral programs has absorbed a large amount of the additional personal services funds.

IV. Salary rates for persons on leave without pay are shown in parentheses since they do not affect actual expenditures.

V. The contract for every twelve-month faculty administrative staff member having academic rank on a continuing or permanent basis will indicate that the twelve-month appointment will be dependent on his assignment.

PERSONAL SERVICES—STUDENT

I. A total of $1,532,094 has been provided for student help in 1963-64 from state appropriations as compared to about $1,273,334 during the 1962-63 fiscal year. It is planned in the future to use more rather than less student help in the various offices, in laboratories, and in the physical plant. Excellent students with financial need, providing they have the necessary skills or abilities as shown from testing programs are given the first opportunities in finding campus jobs.

II. A blanket increase of five cents per hour has been instituted in the pay scale for student employees on the Carbondale and Edwardsville campuses. The lowest rate is now $.85 per hour and the upper limit has been raised to $1.50 per hour for a few student employees who are in supervisory positions. Since the fiscal year 1960-61, new student employees have been given an automatic increase of five cents per hour after one term of successful work.

III. Pre-service training programs have been developed for office workers, food service workers, photographic workers, and workers in parts of the library. In-service training programs are provided for many of the workers in the physical plant.

IV. Great care is exercised in coordinating the class and work programs of students. Whenever possible a student is placed in work related to his major or minor study areas.

TRAVEL

I. In order to provide equitable distribution and more effective control of travel funds, the allotments for travel are made in four categories as follows:

A. Institutional travel which involves travel on university business not identified with a specific department or office.

B. Convention travel which involves travel to professional meetings in which it is intended to keep staff members abreast of the most recent developments in their fields. This has been allocated on a prorata basis to the major functions of the University and will be distributed from the offices of the Vice-Presidents and of the major educational units.

C. Departmental travel which involves travel that departments and offices must do in order to carry out their regular functions.

D. Air travel which involves travel where additional convenience and speed serve the best interests of the University.

II. Travel allotments to the various accounts are for the reimbursement of out-of-pocket costs, such as commercial transportation, lodging, and food. Travel in University-owned passenger automobiles and airplanes is chargeable against State appropriations other than travel and such costs are paid from other current expense funds by the departments and offices using the services.

EQUIPMENT

I. Equipment funds have been allocated to departments and offices for the purchase of small equipment. The general library budgets contained herein are the same as the corresponding figures in the 1962-63 internal budget at the time the detailed account budgets were completed for inclusion herein. Neither the Carbondale campus nor the Edwardsville Campus administrations had made a final determination of the additional small equipment funds to be allotted their respective libraries for book purchases in excess of the funds made available in the preceding year. Such funds are included with the equipment money in general accounts and will be allocated as studies of needs determine. Such studies will take into consideration, along with funds for book purchases, large equipment needs not met by the allotments already made.

OTHER CURRENT EXPENSES

I. In addition to funds for travel in University-owned automobiles and airplanes previously mentioned, other current expenses include contractual services, commodities, stationery, printing, office supplies, employer contributions to the University Retirement System, refunds, and awards and grants for scholarships.

II. The film rental service of the audio-visual education department will charge other departments for the use of instructional films. Allocations have, therefore, been made to the departments to be used for this specific purpose.

III. The problem of providing for the on-campus expenses of interviewees, consultants, and other official visitors to the campus has been met by allocating limited funds for this purpose to the offices that handle convention travel.

GENERAL COMMENTS

I. For the first time the Central University accounts at each campus reflect the over-all University responsibility of certain administrators. The time and salary listings of these individuals have been divided equally in the Central University accounts of the two campuses.

II. The Central University accounts at each campus are followed respectively by accounts for which the Vice-President for Operations has responsibility.

III. In general the departments, divisions, and the units on the campuses have been allotted operational funds in accordance with the decisions of the respective Vice-Presidents for Operations and their staffs for use of the funds made available to them. The moderate increases possible in the personal services and other funds will be put to good use, but will not provide adequately for growth caused by increasing numbers of students, the deficiencies carried over from past years, or the increasing functions of divisions and departments.

IV. Graduate assistantships have been budgeted to the schools and colleges on the Carbondale campuses at a somewhat higher level than for 1962–63. The sum of $100,000.00 has been set aside in the general instruction budget of the Dean of Academic Affairs for the employment of graduate assistants who have completed their master's degrees and are working towards advanced degrees in departments which have been authorized to grant doctoral degrees.

V. Funds to be distributed later according to enrollment and other pressures have been set aside in Central University, Carbondale Campus and Edwardsville Campus budgets.

VI. The University's internal operating budget includes a recommended budget allocation for restricted funds, that is, funds not appropriated to the University from

General Revenue or from the University Income Fund. Income for restricted funds is provided from instructional research and student aid grants made by outside agencies, from University student activity fees, and from other sources. Also included for information are the estimated operations of the University service department funds. The titles of all such accounts as well as those of auxiliary enterprises are enclosed in parentheses.

VII. The budget has been produced through the mechanical facilities of the Data Processing and Computing Center. Along with explanatory notes and an index, a financial summary is found immediately following this introduction, and an alphabetical index of University employees and their listing in the various allocation accounts is found at the back of the book.

VIII. For purposes of classifying and controlling positions, each member of the staff has been or will be assigned a position number, which appears in the front of his name. In a few cases, it has been impossible to assign a number in time for it to appear in this budget.

Certain of the symbols immediately preceding or immediately following position numbers carry special meanings as follows:

N———————	Number assigned to nonacademic employee by University Civil Service
R———————	Faculty–administrative staff member paid from restricted account
————————C	Employee position assigned to the department, Division or unit on a continuing basis until withdrawn by proper authority
————————T	Personnel position assigned to a division, department, or unit on a temporary basis, to be dropped from the budget of the unit at the end of the fiscal year or earlier unless specifically renewed by proper authority

Certain letters follow the suffix letters C and T described above. These have reference to the nature of the appointment of the individual now filling a position or to be employed to fill the position as follows:

————————C	Staff member on continuing appointment
————————P	Professor, associate professor, assistant professor, or instructor with permanent tenure.
————————T	Staff member on term appointment
————————E	Emeritus or Emerita staff member
————————D	Staff member on disability leave
